Gemoterapia Ruiz, Stella, Las gemas atravesaron incansables los tiempos para ponernos más cerca del verdadero poder universal. Y están aquí mismo tan cerca de nuestras manos. A quienes no les gusta tener el tiempo para dedicarle un momento aunque sea de su día de su vida a esos mensajes que parecen venir desde tan lejos. A quienes no les gusta poder llevar consigo y a todas partes esos pequeños fragmentos de la esencia del cosmos, en ninguna parte del gran Todo. El objetivo de la Gemoterapia es brindar a las personas un estado de equilibrio espiritual, mental y físico a través de la utilización de las gemas. Se trata de una terapia energética y vibracional que, como otras terapias complementarias, se basa en principios enteramente naturales. Su principio de sanación se fundamenta en la activación de la energía mineral del cuerpo a través de la energía de las gemas. Esta técnica, además de funcionar como una terapia de sanación, puede incorporarse a la vida cotidiana para uso preventivo, manteniendo en armonía los minerales de nuestro cuerpo. Las gemas nos unen con la fuerza nutritiva y protectora de la Tierra, y a través de sus colores son portadoras de la luz y transmisoras de cualidades cósmicas. Este libro es una invitación para descubrir a fondo la Gemoterapia. Empecemos este maravilloso recorrido hacia las profundidades de nuestra Tierra y de nuestra historia para luego renacer a la luz del sol y la sabiduría y al igual que nuestras gemas reflejar toda esa luminosidad hacia el Universo.

Los peligros y beneficios de las terapias alternativas Jose Manuel Ferro Veiga, **Para una vida mejor** Jose Manuel Ferro Veiga, 2019-05-24. Las personas como seres sociales se ven obligadas a establecer relaciones con sus semejantes, ya sea en el entorno familiar, educativo, laboral o de ocio. Sin embargo, no siempre es fácil desenvolverse en un determinado contexto social. Y no es debido a la falta de capacidades, sino porque no se han adquirido las habilidades necesarias para hacerlo. Dentro del ámbito de la salud, se ha demostrado que enseñar a desarrollar estas habilidades es la forma más eficaz para establecer comportamientos saludables, tanto de manera individual como colectiva. El libro describe cuáles son y cuáles son algunas de las muchas habilidades para la vida. En general, se identifican tres clases de habilidades: las sociales o interpersonales, como la comunicación asertiva o la empatía; las cognitivas, como la toma de decisiones o el pensamiento crítico; y las habilidades para el manejo de las emociones, como el estrés.

Revista cultural lotería, 2005. **Geometría y Luz** Marta Povo, 2014-11-01. Una obra pionera a nivel místico-espiritual en la que podemos comprender y reflexionar sobre la gran aportación de la sagrada geometría y los colores de la luz sobre nuestra salud y plenitud psicoenergética. Se trata de un gran compendio de conocimientos resultado de veinte años de experimentación con la Geocromoterapia, creada e impulsada por Marta Povo, conocedora de la visión energética integrativa en relación a la psique y el alma humana. La Geocromoterapia se centra en el empleo coherente y simultáneo de los patrones ordenados y estables de la geometría, junto a las pautas armónicas del cromatismo de la luz, con

finalidades claramente terapéuticas e incluso de desarrollo anímico y expansión de la conciencia sus usuarios la consideran una medicina para el alma y una gran herramienta de autoconocimiento del subconsciente **Tierra en Ascenso** José Argüelles,2005 Feng Shui Clásico Lanz -,2016-08-08 Feng Shui es una de las más antiguas artes de la Metafísica China Este libro lo presenta de una manera clara y concisa develando las bases fundamentales y desmitificando este milenario arte Aprende los fundamentos del Feng Shui Clásico y su técnica más sencilla Las Ocho Mansiones para lograr que nuestros hogares sean ambientes balanceados que nos propicien mejor salud y nos brinden prosperidad y relaciones beneficiosas Una obra necesaria para cualquier neófito o practicante del verdadero Feng Shui Una filosofía de vida que trata y estudia el flujo de la energía y sus condicionamientos en nuestras moradas Una obra que nos enseña a entender y manipular la energía de nuestro entorno con la finalidad de beneficiarnos de las manifestaciones positivas de la misma y de minimizar los efectos de la energía hiriente
