Rashotte,2015-04-23 This book provides the first comprehensive study of narco cinema a cross border exploitation cinema that for over forty years has been instrumental in shaping narco culture in Mexico and the US borderlands Identifying classics in its mammoth catalogue and analyzing select films at length Rashotte outlines the genre s history and aesthetic criteria He approaches its history as an alternative to mainstream representation of the drug war and considers how its vernacular aesthetic speaks to the anxieties and desires of Latina o audiences by celebrating regional cultures while exploring the dynamics of global transition Despite recent federal prohibitions narco cinema endures as a popular folk art because it reflects distinctively the experiences of those uprooted by the forces of globalization and critiques those forces in ways mainstream cinema has failed Burning Man Linda Noveroske-Tritten,2024-02-06 This book centers on a philosophical analysis of creative acts at the Burning Man Festival and their roles in wider social change With particular focus on the Ten Principles of Burning Man Linda Noveroske Tritten posits a re interpretation of common notions of self and

other as they apply to identity difference and the ways that these personal impulses ripple outward from changing individuals into changing societies Such radical re imagination of ideology can be most powerful when it occurs in spaces of otherness of heterotopia This study casts Burning Man as a heterotopia not only to destabilize what we think we know about visual art performance and creative encounters but also bring these acts into an attitude of immediacy that facilitates previously unimagined behavior and opens out artistic drive into the unknown This book would be of value for scholars and practitioners in Performance Studies Theatre and Dance Art History Psychology Phenomenology Humanities Architecture and Urban Studies
