## **Future Of Human Rights Law:**

**Reflections on the Future of Human Rights** Gentian Zyberi, Johan Karlsson Schaffer, Carola Lingaas, Eduardo Sánchez Madrigal, 2023-07-31 This book aims to prospectively conjecture about what the coming decades may hold for human rights. The authors in this volume discern where current trends are likely to lead and try to make sense of the future they herald. Human rights as a legal, political, and social practice have experienced significant achievements and successes, some notable setbacks and failures, and numerous unprecedented and unforeseen events and developments. Sceptics even claim that the idea of human rights has failed to deliver on its radical promise of emancipation. The chapters in this volume deal with ways to reimagine the existing human rights framework, the future of the African human rights system, the place of human rights in economic policy making, reparations for chattel slavery, and the right to free education for all children. The thematic and disciplinary breadth of contributions makes this book a resource for scholars, practitioners, and students alike. In analysing and critically discussing matters of climate change, right to a healthy environment, preventing disasters, and building resilience and resource management, it provides timely and important contributions. However, the book does not limit itself to discussing current day challenges; it also covers issues concerning the regulation of artificial intelligence and algorithmic decision making, as well as potential paths in the future relationship between the African and the European Human Rights Court. *Reflections on the Future of Human Rights* will be beneficial to students, scholars, and researchers interested in international law, human rights, and politics. Overall, the book is suitable for anyone interested in human rights and their evolution in theory and practice. The chapters in this book were originally published as a special issue of *Nordic Journal of Human Rights*.  
**The Cambridge Companion to Human Rights Law** Conor Gearty, Costas Douzinas, 2012-11-22 Captures the essence of the multi-layered subject of human rights law in a way that is authoritative, critical, and scholarly.

**International Humanitarian Law and Human Rights Law** Roberta Arnold, Noëlle N. R. Quénivet, 2008 Drawing upon previous theories on the relationship between human rights law and international humanitarian law, this book examines on the basis of a series of individual case studies the new theoretical trend arguing for a merge of these two sets of norms.

**Paradigms of International Human Rights Law** Aaron Xavier Fellmeth, 2016 This book explores the legal, ethical, and other policy consequences of three core structural features of international human rights law: the focus on individual rights instead of duties, the division of rights into substantive and nondiscrimination categories, and the use of positive and negative right paradigms. Book jacket.

**Contingency in International Law** Ingo Venzke, Kevin Jon Heller, 2021 This volume brings together a group of renowned experts to discuss the question of whether international law could have developed differently. Contributors explore contingency in theory and practice across a range of fields, including those related to migrants and refugees, the sea, and natural resources and human rights.  
**Redirecting Human Rights** A. Gear, 2010-04-09 Against the backdrop of globalization and mounting evidence of the corporate subversion of the Universal Declaration of Human Rights

paradigm Anna Grear interrogates the complex tendencies within law that are implicated in the emergence of corporate humanity Grear presents a critical account of legal subjectivity linking it with law's intimate relationship with liberal capitalism in order to suggest law's special receptivity to the corporate form She argues that in the field of human rights law particularly within the Universal Declaration of Human Rights paradigm human embodied vulnerability should be understood as the foundation of human rights and as a key qualifying characteristic of the human rights subject The need to redirect human rights in order to resist their colonization by powerful economic global actors could scarcely be more urgent

**Global Values and International Trade Law** Csongor István Nagy, 2021-12-26 Exploring the relationship and interaction between economic interests and normative non trade values this book argues that the emergence and development of non trade values is based on a complex dialectic interaction between selfish economic interests and normative values and examines how their structural interdependence has given rise to a remarkable evolution in international trade Conceiving this relationship as an intricate dialectic one that is neither purely value driven nor purely economic interest driven it addresses the emergence function and role of non trade values in international trade with a synthesizing approach and explores the results of their interaction in international economic intercourse Approaching the non trade issues of trade in a holistic manner the book demonstrates that trade can operate smoothly only if it is framed by an architecture of normative value standards and international trade liberalization has reached the level where further development calls for cooperation also in fields that at first glance may appear to be non trade in nature

**Human Rights Law Journal**, 2001

**International Human Rights Law and Indigenous Peoples** Stefan Kirchner, 2016-01-04 Scientific Essay from the year 2015 in the subject Law European and International Law Intellectual Properties language English abstract How does general international human rights law protect indigenous peoples After all the Universal Declaration of Human Rights UDHR remains silent on the issue But the UDHR formed the fundament for the creation of the International Covenant on Civil and Political Rights ICCPR and the International Covenant on Economic Social and Cultural Rights ICESCR which share a common Article 1 which protects indigenous livelihoods Article 1 2 ICCPR ICESCR is a reminder of the right to self determination of peoples and while there is some debate as to whether this is a subjective right of peoples in relation to states or merely a legal principle and if it also applies to indigenous peoples Article 1 ICCPR ICESCR is a reminder of the continued relevance of indigenous sovereignty This essay looks at how international human rights law can be utilized to protect indigenous peoples from the practical human rights law perspective

New York Court of Appeals. Records and Briefs. New York (State)., **Human Rights on the Edge** Heather Smith-Cannoy, Tricia Redeker Hepner, 2023-06-06 This book grapples with the challenges inherent in an uncertain period for global human rights and explores the future of international human rights law and practice Many Western scholars are increasingly pessimistic about the future of international human rights law However the contributions to this volume demonstrate that far from collapsing in the face of

duress the concept of human rights has endured despite contractions and the spectre of co option and manipulation by the powerful In addition law is a malleable tool that is deployed in novel ways to promote human rights The book illustrates that the power of human rights lies not in their essentialized transcendence of time culture and context but in their enduring promise that a more just world can emerge from sustained and creative struggle through against and at the margins of states law and institutions The key questions to emerge are not whether human rights law and practice will survive but rather what are the forces that sustain revitalize and transform them And what are human rights in the process of becoming This book will be of immense interest to those studying and researching across Politics Human Rights Gender and Law It was originally published as a special issue of the Journal of Human Rights An Introduction to Human Rights and the Common Law Rosalind English, Philip Havers, 2000-07-10 This collection of papers the product of two seminars analyses the European Convention on Human Rights on public and criminal law and its future *Law and Contemporary Problems*, 1949 **Boston University International Law Journal**, 1994 Third Generation Human Rights Rohimi Hj. Shapiee, 1994 *Current Law Index*, 2005 Proceedings of the ... Annual Meeting American Society of International Law, 2007 **Non-judicial Mechanisms for the Implementation of Human Rights in European States** Gauthier De Beco, 2010 *United Nations Juridical Yearbook* United Nations, 2000 *Bishop V.
