When it came into force in 1994 the North American Free Trade Agreement NAFTA joined the economic futures of Canada Mexico and the United States with systematic rules governing trade and investment dispute resolution and economic relations However economic integration among the three countries extends considerably beyond trade and investment The NAFTA agreement takes a very narrow view of integration barely addressing such vital issues as immigration policy and labor markets the energy sector environmental protection and law enforcement The governments of Canada Mexico and the United States now must confront the question of whether NAFTA is enough Do they want to keep their trilateral relationship focused on economic matters or are they interested in integrating more deeply perhaps initiating a process to build a North American Community similar to the European Union This volume contains thoughtful discussions about the future of North America by knowledgeable experts from each of the three countries Robert Pastor has written one of the more comprehensive books on the subject *Toward a North American Community* Institute for International Economics 2001 Andr s Rozental is an ambassador at large for Mexico and president of Consejo Mexicano de Asuntos Internacionales the country s leading foreign policy association in Mexico Perrin Beatty is a former foreign minister of Canada and currently the president and CEO of the Canadian Manufacturers and Exporters The governments of Canada the United States and Mexico face thorny challenges as they decide whether and how to accelerate smooth and institutionalize the integration process Pastor Rozental and Beatty encourage greater dialogue among the three governments and their citizens as well as more systematic thinking among policymakers and citizens about the promise and challenges of further North American integration This volume considers the promise and challenges of

In its first seven years the North American Free Trade Agreement NAFTA tripled trade and quintupled foreign investment among the U S Mexico and Canada increasing its share of the world economy In 2001 however North America peaked Since then trade has slowed among the three manufacturing has shrunk and illegal migration and drug related violence have soared At the same time Europe caught up and China leaped ahead In *The North American Idea* eminent scholar and policymaker Robert A Pastor explains that NAFTA s mandate was too limited to address the new North American agenda Instead of offering bold initiatives like a customs union to expand trade leaders of the three nations thought small Interest groups stalemated the small ideas while inhibiting the bolder proposals and the governments

accomplished almost nothing To overcome this resistance and reinvigorate the continent the leaders need to start with an idea based on a principle of interdependence Pastor shows how this idea once woven into the national consciousness of the three countries could mobilize public support for continental solutions to problems like infrastructure and immigration that have confounded each nation working on its own Providing essential historical context and challenging readers to view the continent in a new way The North American Idea combines an expansive vision with a detailed blueprint for a more integrated dynamic and equitable North America
