## **Global Instability:**

*Global Instability* S. McBride, L. Dobuzinskis, Marjorie Griffin Cohen, J. Busumtwi-Sam, 2012-12-06 *Global Instability Uncertainty and New Visions in Political Economy* presents a series of papers that address the political consequences of globalization for states and their populations while exploring the issue of alternatives to the model of globalization we are presently experiencing. The focus moves from the world of international agreements to the national and sub-national dilemmas that are posed by attempting to manage a set of global developments within a given territory. The initial chapter by Daniel Drache explores a still-born post-war international organization, the International Trade Organization, that offers a different vision of how a globally integrated economy might operate. A number of papers then explore the challenges posed by today's globalization, including currency instability in an environment of financial deregulation, the rights conferred on investors by the North American Free Trade Agreement, and the progressive liberalization of trade in services built into the General Agreement on Trade in Services.

**Complex Cases in Total Knee Arthroplasty** Alfred J. Tria, Giles R. Scuderi, Fred D. Cushner, 2018-02-20. Covering both primary and revision total knee arthroplasty (TKA), each technique-oriented chapter in this book opens with a clinical case and an overview of the challenges and multiple options for management, and each section within the chapter will describe the physical exam, surgical approach, clinical outcome, and recent supporting literature. Chapters will utilize bullet points for quick reference and plentiful intra-operative photos to illustrate the various techniques described. Part one covers primary TKA with cases demonstrating management strategies for the varus and valgus knee, flexion contracture, patellofemoral arthritis, and extra-articular deformity, among others, while part two covers revision TKA with cases demonstrating acute infection, flexion and global instability, severe tibial and femoral bone loss, and periprosthetic fracture, among others. Written and edited by experts in the field, *Complex Cases in Total Knee Arthroplasty: A Collection of Current Techniques* will be a useful reference for orthopedic surgeons, residents, and fellows, as well as sports medicine specialists and anyone involved in surgical care of the knee.

Fracture Mechanics of Ceramics R. C. Bradt, D. P. H. Hasselman, F. F. Lange, 2012-12-06. These volumes constitute the Proceedings of a Symposium on the Fracture Mechanics of Ceramics held at the Pennsylvania State University, University Park, Pennsylvania, July 11, 12, and 13, 1973. The theme of the symposium focused on the mechanical behavior of brittle ceramics in terms of the characteristics of cracks. The 52 contributed papers by 87 authors present an overview of the current understanding of the theory and application of fracture mechanics to brittle ceramics. The program chairmen gratefully acknowledge the financial assistance for the Symposium provided by the Office of Naval Research, the College of Earth and Mineral Sciences of the Pennsylvania State University, the Materials Research Center of Lehigh University, Bethlehem, Pennsylvania, and Westinghouse Research Laboratories, Pittsburgh, Pennsylvania. Special appreciation is extended to the expert organization provided by the J. Orvis Keller Conference Center of the Pennsylvania State University. In particular,

Mrs Patricia Ewing should be acknowledged for the excellent program organization and planning Dean Harold J O Brien who was featured as the after dinner speaker and who presented a most stimulating talk on the communication between people also contributed to the success of the meeting Finally we also wish to thank our joint secretaries for the patience and help in bringing these Proceedings to press University Park R C Bradt Bethlehem D P H Hasseiman Pittsburgh Pennsylvania F F Lange July 1973 v CONTENTS OF VOLUME 2 Contents of Volume 1

**Signal** ,1993 **Shadow on the White House** David L. Anderson,1993 Harry Truman s administration began searching for an American response to the clash in Indochina between French colonialism and Vietminh communism in 1945

Thirty years and five administrations later Gerald Ford and his aides tried unsuccessfully to solicit additional aid for South Vietnam from a reluctant Congress. For Truman Ford and every American leader in between the dilemma in Vietnam hung ominously over the presidency. In *Shadow on the White House* seven prominent historians examine how the leadership of six presidents and an issue that grew into a difficult and often unpopular war shaped each other. Focusing on the personalities, politics, priorities, and actions of the presidents as they confronted Vietnam, the authors consider the expansion of presidential power in foreign policy formulation since World War II. In their analyses they chronicle the history of executive leadership as it related to Vietnam, assess presidential prerogatives and motives on war and peace issues, and clarify the interconnection between the modern presidency and the nation's frustrating, tragic, and humiliating failure in Southeast Asia. Although other histories have been written about the Vietnam experience, this book is the first systematic and comparative survey on presidential leadership as it relates to the war issue. It is organized by presidential administrations, giving a detailed examination of each president's decisions and policies. Based on the most recently opened archival sources, the essays provide a framework on which to hang the kaleidoscopic events of the war. Amazon.com

**Global Problems** Scott Sernau, 2009  
This text uses sociological perspectives to examine the various dimensions of globalization and the social problems of inequality, war, and violence, and environmental sustainability that are occurring on a global scale. Clear writing and vivid examples help students to better understand their role as global citizens. The book is divided into three parts: Part I focuses on the challenges of global inequalities in life chances, wages, and work, gender, and education; Part II focuses on conflict and violence at all levels, from crime to politics, terrorism to war; Part III focuses on the issue of sustainability and the problems of urbanization, crowding, and environmental destruction.

*Reforming the Global Financial Architecture* Yilmaz Akyüz, 2002  
This book reviews recent measures in global finance to show how little has been done to establish effective global arrangements that address the main concerns of developing countries. Its proposals for alternative measures draw on the latest economic thinking. Among topics discussed are international capital flow regulations, the exchange rate system, international debt, and IMF reform.
