## God And Space Time:

**Decoding Spacetime** Eric Carlson, 2010-11-08 This is a book about science religion and being yours and mine The study of being is called Ontology Our culture is dominated by a naturalist ontology The question is does ontology include a supernatural component Or is that idea a relic of our primeval past sort of like appendix and adenoids parts that can be excised from the body of our belief system The author argues for the primacy of the transcendent supernatural ontology by means of two books the book of nature and the book of transcendency the Bible each containing its own portion of the evidence Mr Carlson argues for the following The universe represents a small portion of Gods ontology a small reality devoted to redemption The signet of redemption is the number 7 its appearance within chronology is deliberate instructive and compelling The Creation Week account reflects a two fold metaphor 1 space time itself was created to support the redemptive act and 2 mankinds history will unfold in a series of seven ages later quantified as millennia The interval between Adam and Abraham literally filled one redemptive bi millennium but the catastrophic effects of 3 realities the Cainite civilization Noah and the break up of Pangaea contribute to the appearance of myth as viewed by the uniformitarian geologist for whom catastrophes appear invisible The 2nd bi millennium Abraham to Messiah was also fulfilled exactly in redemptive time The termination of our age is imminent and dependent upon the chronology of Israel mankinds chronograph A detailed chronology of the history of Israel is flavored with the redemptive signet especially 70 yrs or 70 heptads of yrs By decoding Israels history in redemptive time and employing the single concept of the favor of God the author derives a Biblical based proof that modern Israel is the same and identical state founded by Samuel in 1096 BC Three independent proofs of this foundational date are provided These proofs show that the Monarchy existed for exactly 511 yrs which period is exactly equal to 73 heptads Israel is an heptadic state The author concludes that the redemptive corollary to Israels ontology is also proven we have actually entered the end times and the events associated with the last days will soon unfold Because the reality of Israel is visible to all it is apparent that the redemptive offer made to mankind is also real and visible such as that appearing in John 3 16 John 6 40 and Romans 10 9 13 There is much to learn about our world Start now Tomorrow may be too late

**Sexual Subversions** Elizabeth Grosz, 2020-09-02 Sexual Subversions introduces the works of three well known if not well read French feminists Julia Kristeva Luce Irigaray and Micele Le Doeuff It provides a map of an area where there are few detailed discussion of the achievements of these difficult yet immensely rewarding writers In doing so this overview raises issues of general relevance to feminist research it participates in debates around the nature of feminist theory the relations feminist intellectuals have to male dominated knowledges and the strategies appropriate for developing non patriarchal autonomous or woman centred knowledges No book in French feminists would be complete without including the contributions of Kristeva and Irigaray The inclusion of Le Doeuff s work which brings a different perspective to bear on the question of sexual difference provides a counterbalance to literary appropriations of French feminism by Anglo American

readerships Kristeva Irigaray and Le Deouff are the focal points of this study precisely because each highlights the differences of the others revealing the frameworks to which the others are committed Nevertheless while these writers do not present a common political or theoretical position or form a school each addresses the question of women s autonomy from male definition affirms the sexual specificity of women seeks out a femininity women can use to question the patriarchal norms and ideals of femininity and rejects the preordained positions patriarchy allots to women *On God, Space, and Time* Akiva Vroman,2019-01-22 For Akiva Jaap Vroman a day in the infinite past is nonsense All the days that have elapsed belong to a past of countable days they started on a first day a finite number of days ago Time began this first day It follows that an eternal past does not exist Vroman bases his reasoning on a simple mathematical law an infinite quantity remains the same infinite quantity if a finite quantity however large is subtracted from it On God Space and Time devotes itself to this proof On God Space and Time is rooted in the epistemological thinking of Immanuel Kant and Jean Piaget and the law of Leucippus and draws from the somewhat disparate fields of psychology physiology mathematics and physics **God and Space-time** Alfred P. Stiernotte,1954 *Thomas F. Torrance's Theology of the Ascension* Stavan Narendra John,2025-05-29 The ascension is a crucial doctrine integrally related to the incarnation When it is underemphasized it results in an impoverishment of our theology of Christ the church human beings and eschatology T F Torrance s theology offers a compelling vision and holistic doctrine of the ascension that notwithstanding its flaws deserves a careful and detailed examination Torrance develops a holistic account of the ascension by considering the ontology spatiality and present ministry of the ascended Jesus What results is a theological construction that affirms the ascended body of Christ and understands the Lord to be currently serving as our human representative in a ministry of priestly intercession prophetic declaration and ascended kingship Torrance is able to do this without succumbing to literalism space travel demythologization metaphorical reading or Pelagianism human effort based sanctification and glorification This book interprets and then develops Torrance s theology of the ascension in critical dialogue with contemporary theological interlocutors **On God, Space, and Time** Akiva J. Vroman,1999 An infinite quantity remains the same infinite quantity if a finite quantity however large is subtracted from it On God Space and Time devotes itself to this proof Man and the Cosmos Joseph Alexander Leighton,1922 **The Monist** Paul Carus,1928 Vols 2 and 5 include appendices The Church Quarterly Review ,1922 **Biography of the Spirit** John Haughey,2015-03-01 **God and Intelligence in Modern Philosophy** Fulton John Sheen,1925 *The Philosophical quarterly* ,1933 **The Alphabet of the Universe** Gurney Horner,1907 **The Delights of Wisdom Pertaining to Conjugal Love** Emanuel Swedenborg,1885 *The Immortal Self* Richard Wilde,2010 The Immortal Self traces historical ideas of the self as developed by philosophers theologians neurophysiologists and scientists It includes explanations of quantum mechanics and Einstein s theory of relativity that are readable and understandable by the layperson It considers what science presently is capable of contributing to our many diverse concepts of what constitutes the self To
