Challenges to practicum The authors have explored professional practice knowledge and the ways practicum is dealt with in teacher education They report from Research and Development projects based on collaboration between universities and school communities Empirical studies have been carried out in Australia Canada China Denmark Finland Norway and Sweden Communication about practicum is reframed Preservice teachers experiences during practicum serve as a point of departure for improving teacher education The book is a must for everyone committed to quality in initial teacher education including preservice teachers school leaders and local supervisors This volume explores new and different ways to think about the construction and evaluation of the practicum that students encounter Contributors ask the reader to consider the assumptions that the practicum is based on question these assumptions and strive to find new and better ways to contribute to the autonomy professionalism and moral development of emerging teachers The focus is clearly on creating conversational and learning spaces for students that encourage them to think explicitly about theory and its application to practice and vice versa The book not only challenges our thinking but also provides rich examples of research and evaluation in this area which help us to hear the voices of those involved in the practicum in fresh and insightful ways Reflections by Roslin Brennan Kemmis Head of the School of Education Charles Sturt University Wagga Wagga Australia

Communicating Through Story Characters Pamela Brooke,1995 From Aesop s fables to Christ s parables to the Grimm Brother s fairytales storytelling has been a valuable teaching tool throughout history In this book Pamela Brooke shows how storytelling can effectively be used to affect change and educate individuals particularly in developing countries through various radio formats including short spots plays soap operas and novellas Using real life examples such as the use of radio drama in malaria prevention in Africa she discusses the ins and outs of developing

educational radio programs including offering advice on where to look for talented actors what you should consider in using sound effects and how to organize the recording session Regardless of the message whether it is to affect change in personal behavior or a call for social reform telling a story with vivid characters and a mesmerizing plot is the most effective way to penetrate the audience s consciousness Contents When the Facts are Not Enough How We Learn From Stories How to Choose a Radio Format and Dramatic Style How to Create a Radio Drama Storyline How to Write a Radio Drama Script How to Bring a Script to Life in the Studio References Index *The Field Afar* ,1921 *Socioecological Transformations* Sabaheta Ramcilovic-Suominen,2025-07-25 Socioecological Transformations confronts dominant framings of transformation that either remain apolitical and ahistorical or overemphasizes the structural causes while bypassing the ontological roots of the present day socioecological violence and destruction It challenges the technocratic and structuralist tendencies that either reduce transformation to policy tweaks or to social movements and activism This volume reclaims socioecological transformations as a radical justice centred theory praxis By connecting the structural and the ontological roots of the colonial racial capitalist system of oppression the book exposes how materialist dualist ontology and associated worldviews uphold hierarchies of worth which in turn serve and uphold the colonial racial capitalist system of oppression In doing so it widens the spectrum of viable responses to include in addition to social movements and activism those that unsettle the ontological bases of our socioecological calamities the human exceptionalism and the illusion of separation The fifteen chapters span diverse geographies struggles and approaches weaving together onto epistemic inquiry with grounded transformative practices movements and action The contributions share the common focus on justice as both motivation and a guiding principle for transformations The book calls for transformation where being knowing and doing are reimaged in relational life affirming terms A vital resource for students academics activists inspired by political ecology feminist studies decolonial and relational approaches social movements and transformations but also practitioners and policy actors seeking to engage transformation beyond surface level solutions Socioecological Transformations invites readers to embrace complexity plurality along the paradoxes that transformations entail while building solidarities across polarized strategies ontologies and worldviews The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
