Edge Of Paradise:

Medieval Studies and the Ghost Stories of M. R. James Patrick J. Murphy, 2017-02-28 Montague Rhodes James authored some of the most highly regarded ghost stories of all time classics such as *Oh Whistle and I'll Come to You My Lad* that have been adapted many times over for radio and television and have never gone out of print But while James is best known as a fiction writer and storyteller he was also a provost of King's College Cambridge and Eton College and a legendary and influential scholar whose pioneering work in the study of biblical texts and medieval manuscripts art and architecture is still relevant today In *Medieval Studies and the Ghost Stories of M R James* Patrick J Murphy argues that these twin careers are inextricably linked James's research not only informed his fiction but also reflected his anxieties about the nature of academic life and explored the delicate divide between professional university men and erratic hobbyists or antiquaries Murphy shows how detailed attention to the scholarly inspirations behind James's fiction provides considerable insight into a formative moment in medieval studies as well as into James's methods as a master stylist of understated horror During his life James often claimed that his stories were mere entertainments pleasing distractions from a life largely defined by academic discipline and restraint and readers over the years have been content to take him at his word This intriguing

volume however convincingly proves otherwise

Design by Fire Emily Schlickman, Brett Milligan, 2023-08-31 Across the world the risks of wildfires are increasing and expanding Due to past and current human actions we dwell in the age of fire the Pyrocene and the many challenges and climate adaptation questions it provokes Exploring our past and current relationships with fire this book speculates on the pyro futures yet to be designed and cared for Drawing upon fieldwork mapping drone imagery and interviews this publication curates 27 global design case studies within the vulnerable and dynamic wildland urban interface and its adjacent wildlands The book catalogs these examples into three approaches those that resist the creative and transformative power of fire and forces of landscape change those that embrace and utilize those forces and those that intentionally try to retreat and minimize human intervention in fire prone landscapes Rather than serving as a book of neatly packaged solutions it is a book of techniques to be considered tested and evaluated in a time of fire
