Education and Philosophical Thought Kingsley Price, 1967      **Philosophy of Education** Nel Noddings, 2018-04-17 The first edition of Nel Noddings *Philosophy of Education* was acclaimed as the best overview in the field by the journal *Teaching Philosophy* and predicted to become the standard textbook in philosophy of education by *Educational Theory*. This classic text originally designed to give the education student a comprehensive look at philosophical thought in relation to teaching learning research and educational policy has now been updated to reflect the most current thinking in the field. A revised chapter on Logic and Critical Thinking makes the topic more accessible to students and examines how critical thinking plays a role in light of the new Common Core standards. *Philosophy of Education* introduces students to the evolution of educational thought from the founding fathers to contemporary theorists with consideration of both analytic and continental traditions. This is an essential text not only for teachers and future teachers but also for anyone needing a survey of contemporary trends in philosophy of education.      *NEP2020 Philosophy: Indian Philosophical Thoughts and Contribution of Thinkers to the field of Education* Dr. Muttu Vemula, 2024-12-28 Delve into the rich tapestry of Indian philosophical thought that underpins the National Education Policy 2020 (NEP2020).
