Women in Hollywood's Dream Factory Karen McNally, 2026-03-17 Analyzing and challenging the film industry's infamous treatment of women The MeToo revelations put a twenty-first century stamp on the age-old story of women's mistreatment in Hollywood Karen McNally edits a collection focused on examining and revising film history in the aftermath of the women's stories past and present that have come to light The collection begins with essays on the interplay between reality and imagination in narratives and representations of women's experiences of unequal treatment In Part 2 contributors discuss how the gendered attitudes of the media's stories enable inequality in Hollywood and look at the forces that arise whenever women resist these media assaults The next section addresses the structures that built the inequalities and mistreatment while Part 4 revisits established narratives to challenge, renew, and expand upon our understanding of film history through women's stories Essays in the final section address the combination of inequality and resistance that defines women's experiences in Hollywood Piercing and astute *Women in Hollywood's Dream Factory* confronts our perception of Hollywood as a mythological land of dreams Contributors Alicia Byrnes Anna M Dempsey Harriet Fletcher Amanda Konkle Tamar Jeffers McDonald Kerry McElroy Adrienne L McLean Karen McNally Donna Peberdy Melanie Piper Victoria K Pistivsek Sarah Polley Ina C Seethaler Gabrielle Stecher and Jennifer Voss

**Reluctant Conquest** Kathryn C. Lavelle, 2025-06-10 A comprehensive history of U.S. involvement in the Arctic from the American Revolution through the acquisition of Alaska to the present day What drives American foreign relations in the Arctic It is difficult to give a unified answer to this question because most histories of the region are divided between the Atlantic and Pacific coasts Asian and European strategic interests or federal government and Indigenous peoples' concerns making it difficult to understand the connections among the environmental challenges, scientific understandings, strategic calculations, and governance relationships Most Americans do not think of their country as an Arctic power yet it is a region where the United States has had important ties throughout its history In this sweeping study from the founding of the country through the acquisition of Alaska to the present Kathryn C Lavelle considers American relations across the circumpolar North incorporating discussions of economics, national security, and science that are conventionally separated Lavelle argues that it is impossible to understand U.S. policy without a knowledge of American political development and of how scientific understandings have grown alongside studies of climate and other environmental issues This history has important implications for future American policy regarding traditional national security and political economy in addition to climate change and environmental cooperation
