Bonshek, 2001 *Mirror of Consciousness* ambitiously traverses a wide range of themes pertaining to art creativity knowledge and theory Its unique perspective lies in its exposition of Vedic Science as brought to light by His Holiness Maharishi Mahesh Yogi and in the application of the principles of this science to preliminary analysis of the Vastusutra Upanishad No other publication has examined art and theory with the same comprehensive vision To do justice to the topic of universal value in art and theory the author has delved into several areas that impact the visual arts late twentieth century debates in art theory models of historiography new definitions of culture and tradition in the context of the individual s own consciousness or simplest form of awareness Though comprehensive and detailed it will appeal to those who are curious about trends in the visual arts the advent and impact of new technologies and the development of collective consciousness in our time *Creating a Happy World* Patricia Anne Saunders, 2024-07-26 Since stress worry and sadness appear to be on the rise *Creating a Happy World* examines two paths to combat these and create a happy world the path of the individual which can be transformed through achieving higher states of consciousness with the Transcendental Meditation program and the path of society which can be transformed through the impact of Transcendental Meditation on collective consciousness By the time readers have finished reading I hope they will feel more happiness in their own lives a greater belief that life has a purpose and increased optimism for the future of humanity **Belief Transformations** Mikael Rothstein, 1996 *RENNER Studies on New Religions* is an initiative supported by the Danish Research Council for the Humanities The series was

established to publish books on alternative spiritual movements from a wide range of perspectives The books will appeal to an international readership of scholars students and professionals in the study of religion theology the arts and the social sciences It is hoped that this series will provide a proper context for scientific exchange between these often competing disciplines Simply stated the author's main contention is that the two onewo religions under scrutiny TM and ISKCON are despite their common rootedness in Vedic Hinduism fundamentally opposed to each other As presented here they are fundamentally opposed particularly in their attitudes toward modern Western science which world affirming TM celebrates and would assimilate and world denying ISKCON rejects as an illusion in sum this book is both instructive and provocative C McCormick Wells College *Forthcoming Books* Rose Army,1990 **New Religious Movements Update** ,1980
