

ENTERIC NERVOUS SYSTEM

Enteric Nervous System

John Barton Furness

Enteric Nervous System:

The Enteric Nervous System John Barton Furness, 2008-04-15 Covers all aspects of the structure function neurochemistry transmitter identification and development of the enteric nervous system This book brings together extensive knowledge of the structure and cell physiology of the enteric nervous system and provides an up to date synthesis of the roles of the enteric nervous system in the control of motility secretion and blood supply in the gastrointestinal tract It includes sections on the enteric nervous system in disease genetic abnormalities that affect enteric nervous system function and targets for therapy in the enteric nervous system It also includes many newly created explanatory diagrams and illustrations of the organization of enteric nerve circuits This new book is ideal for gastroenterologists including trainees fellows clinical physiologists and educators It is invaluable for the many scientists in academia research institutes and industry who have been drawn to work on the gastrointestinal innervation because of its intrinsic interest its economic importance and its involvement in unsolved health problems It also provides a valuable resource for undergraduate and graduate teaching

Enteric Nervous System Jack D. Wood, 2011 Moreover our incomplete understanding of the pathobiology of these disorders highlights a need for research directed to expansion of current knowledge of the neurobiology of the ENS at all levels of organization from the cellular biology of individual neurons to the biophysics of integrated networks to whole organ behavior Investigation of the normal and disordered ENS and its interactions with the central nervous system is a branch of neurogastroenterology Neurogastroenterology is a scientific and clinical subspecialty of gastroenterology that deals with the neural mechanisms that influence function of the digestive tract and that underlie projection of conscious sensations to the gut

The Enteric Nervous System II Nick J. Spencer, Marcello Costa, Stuart M. Brierley, 2023-01-01 This book is based on the proceedings of the Enteric Nervous System conference in Adelaide Australia under the auspices of the International Federation for Neurogastroenterology and Motility The book focuses on methodological strategies and unresolved issues in the field and explores where the future is heading and what technological advances have been made to address current and future questions The Enteric Nervous System II continues in the tradition of a popular earlier volume which covered the previous meeting Many of the same authors are contributing to this new volume presenting state of the art updates on the many developments in the field since the earlier meeting The coverage includes a wide range of topics from structure and function of the enteric nervous system through gut motility and visceral pain The author team includes long established authorities who significantly contributed to the advances in ENS research over the past two decades and the new generation that will continue to contribute to advancing our understanding of the field

The Enteric Nervous System Stuart Brierley, Marcello Costa, 2016-07-05 Nearly 30 years ago a number of scientists working on the Enteric Nervous System ENS gathered at Flinders University in Adelaide Australia to discuss the advances and future of their research It was a friendly and stimulating meeting attended by most of the major players in what was to become the discipline of

Neurogastroenterology In 2014 the main Australasian Neuroscience Society meeting was held in Adelaide Australia providing the perfect opportunity to recreate a follow up ENS meeting As such the ENS II 2014 meeting aimed to identify how far the field of enteric neuroscience had developed where the future was heading and what technological advances had been made to address current and future unresolved questions 30 speakers from around the world were invited to give talks and revisit the original expectations the advances made since and the future directions of ENS research These discussions included three generations of investigators from 7 different countries This publication represents the majority of proceedings from the The Enteric Nervous System II 2014 conference which was held on February 1st 2nd 2014 at the National Wine Centre of Australia Adelaide This meeting was an Official satellite meeting of the 34th Annual Meeting of Australasian Neuroscience Society which was also held in Adelaide The 20 contributions contained within this submission are from international researchers in the field of the ENS who reviewed the advances made since the first meeting in the early 1980s and summarizes the present and future perspectives of neuro gastroenterology Some colleagues could not attend but did send greetings and their messages are included in these proceedings
