24th Annual Conference on Environmental Law American Bar Association. Section of Natural Resources, Energy, and Environmental Law, 1995

International Environmental Law in the Asia Pacific Ben Boer, Donald R. Rothwell, Ross Ramsay, Donald Rothwell, 1998-02-18 The purpose of this book is to assess the development of international environmental law in the Asia Pacific Consideration is given to the impact upon the region of global regional and subregional environmental law An assessment is also undertaken of how certain states and groups of states have responded domestically and within their own subregions to these developments For the purposes of this book the Asia Pacific is defined as essentially the states which comprise East and Southeast Asia Australia New Zealand and the island states of the Southwest Pacific Occasional consideration is also given to the states of South Asia

The Oxford Handbook of Comparative Environmental Law Emma Lees, Jorge E. Viñuales, 2019-04-25 This Handbook is the first comprehensive account of comparative environmental law It examines in detail the methodological foundations of the discipline as well as the substance of environmental law across countries from four vantage points country studies from all continents responses to common problems including air pollution water management nature conservation genetically modified organisms climate change and energy chemicals waste foundational components of environmental law systems including principles property rights administrative and judicial organisation command and control regulation market mechanisms informational techniques and liability mechanisms and common interactions of environmental protection with the broader public private and criminal law contexts The volume brings together the foremost authorities in this field from around the world to provide a concise self contained and technically rigorous account of environmental law as a single overall system

Research Handbook on International Environmental Law Malgosia Fitzmaurice, David M. Ong, Panos Merkouris, 2010 an impressive volume and

the editors have put together a high quality collection Research Handbook on International Environmental Law ought to be an invaluable reference source for both teachers and students of international environmental law in the years to come Web Journal of Current Legal Issues This wide ranging and comprehensive Handbook examines recent developments in international environmental law IEL and the crossover effects of this expansion on other areas of international law such as trade law and the law of the sea The expert contributors offer analyses of foundational issues in IEL such as responsibility for environmental damage sustainable development and the precautionary principle alongside studies in topical subject areas including marine protection and the law of international watercourses This Research Handbook offers an in depth analysis of IEL both as a field of law in its own right and as part of the wider system of international law It gives a comprehensive view of IEL in all its forms and complexity With thorough examination of specific environmental regimes and compliance mechanisms this Handbook will be an indispensable resource for legal scholars students and practitioners alike
