**Enlightenment Prelate** William Gibson,2022-01-01 Benjamin Hoadly Bishop successively of Bangor Hereford Salisbury and Winchester was the most controversial English churchman of the eighteenth century and he has unjustly gained the reputation of a negligent and political bishop His sermon on the nature of Christ s kingdom sparked the Bangorian controversy which raged from 1717 to 1720 and generated hundreds of books tracts and sermons while his commitment to the Whigs and the cause of toleration for Dissenters earned him the antagonism of many contemporary and later churchmen In this powerfully revisionist study Hoadly emerges as a dedicated and conscientious bishop with strong and progressive principles His commitment to the ideology of the Revolution of 1688 and to the comprehension of Dissenters into the Church of England are revealed as the principal motives for his work as a preacher author and bishop Gibson also shows how Hoadly s stout defence of rationalism made him a contributor to the English Enlightenment while his commitment to civil liberties made him a progenitor of the American Revolution Above all however the goal of reuniting of English Protestants remained the heart of Hoadly s legacy *Lay Activism and the High Church Movement of the Late Eighteenth Century* Robert M. Andrews,2015-05-12 *Lay Activism and the High Church Movement of the Late Eighteenth Century* The Life and Thought of William Stevens 1732 1807 by Robert M Andrews is the first full length study of Stevens life and thought Historiographically revisionist and contextualised within a neglected history of lay High Church activism Andrews presents Stevens as an influential High Church layman who brought to Anglicanism not only his piety and theological learning but his wealth and business acumen With extensive social links to numerous High Church figures in late Georgian Britain Stevens lay activism is shown to be central to the achievements and effectiveness of the wider High Church movement during the late eighteenth and early nineteenth centuries *A Eucharist-shaped Church* Marshall E. Crossnoe, Daniel J. Handschy, Donna R. Hawk-Reinhard,2022-03-02 *A Eucharist shaped Church* Prayer Theology Mission is a historical theological survey of major movements and thinkers that have shaped sacramental theology and liturgical worship within the Anglican Episcopal tradition The contributors attend closely to the interplay between Christian thinking praying and living in order to distil lessons for liturgical revision and worship renewal Each chapter explores a major thinker or movement and explores how the theological liturgical ecclesiological and missiological commitments of the thinker or movement interacted and shaped the thinker s or movement s overall thought This serves a two fold purpose 1 Much scholarship about Anglican eucharistic theology treats some aspect of that theology in isolation presence sacrifice etc from other aspects and from the context in which the theology was developed This approach shows how these various aspects and contexts in fact have mutual explanatory power 2 The interaction of these various aspects of eucharistic theology provide a framework for those involved in liturgical revision to think through the commitments communicated by the proposed revisions *Aligning Mind and Heart* Chris Heasley, Robert Palestini,2021-12-08 This book is a go to guide for school leadership Content includes organization

**Revolution as Reformation** Peter C. Messer, William Harrison Taylor, 2021-01-19 Essays that explore how Protestants responded to the opportunities and perils of revolution in the transatlantic age Revolution as Reformation Protestant Faith in the Age of Revolutions 1688 1832 highlights the role that Protestantism played in shaping both individual and collective responses to revolution These essays explore the various ways that the Protestant tradition rooted in a perpetual process of recalibration and reformulation provided the lens through which Protestants experienced and understood social and political change in the Age of Revolutions In particular they call attention to how Protestants used those changes to continue or accelerate the Protestant imperative of refining their faith toward an improved vision of reformed religion The editors and contributors define faith broadly they incorporate individuals as well as specific sects and denominations and as much of life experience as possible not just life within a given church In this way the volume reveals how believers combined the practical demands of secular society with their personal faith and how in turn their attempts to reform religion shaped secular society The wide ranging essays highlight the exchange of Protestant thinkers traditions and ideas across the Atlantic during this period These perspectives reveal similarities between revolutionary movements across and around the Atlantic The essays also emphasize the foundational role that religion played in people's attempts to make sense of their world and the importance they placed on harmonizing their ideas about religion and politics These efforts produced novel theories of government encouraged both revolution and counterrevolution and refined both personal and collective understandings of faith and its relationship to society
