**The Exhibition and Experience Design Handbook** Timothy J. McNeil, 2023-04-04 Today's multi-modal participatory exhibitions and attractions are bound by a desire to convey information, excite the viewer, and create social and narrative experiences. Without design at the helm and employed effectively, these experiential moments would not become lasting memories that inform and inspire an increasingly sophisticated audience. This full-color illustrated handbook, based on the author's research and expertise as an exhibition designer, educator, and critic, is the first title to simultaneously explain how to design exhibitions and attractions, successfully contextualize contemporary exhibition design practice through its historical and theoretical underpinnings, elevate understanding of one of the most rapidly evolving and trans-disciplinary creative disciplines, illuminate exhibition design's contributions to the expanding global market for civic, cultural, commercial, and entertainment experiences, and reframe the exhibition design process using a set of recurring tropes and the methods they employ, making this book distinct from other practice-based, museological, or commercially driven titles. This full-color book, with over 250 photographs and drawings, uses real-world examples, museum and exhibition design studio profiles, historical and contemporary voices, and draws on the author's own creative practice and exhibition-making experience, as well as contributions from his extensive network of international museum, attraction, and design professionals. The author introduces a new methodology for understanding exhibition and experience design, one that elevates understanding of one of the most rapidly evolving and trans-disciplinary creative disciplines. Twelve easy-to-follow, illustrated chapters introduce a set of reoccurring exhibition design conventions or tropes that are omnipresent in exhibition-making and can be used to chart a new methodology for understanding exhibition design and its process.

Consuming Experience Antonella Caru, Bernard Cova, 2013-01-11 This book covers the hot topic of experiential consumption in an accessible manner and from a unique industry perspective, which is not used in any other book. It highlights the idea that an experience is not something that can be readily managed by firms and is not limited to the market; an individual's daily life is made up of consuming experiences that can occur with or without a market relation. Offering an overview of the consumption experience, it outlines a continuum of experiences of consumption that consumers go through, including those that are mainly constructed by consumers around small items that comprise their daily life, such as organic products and non-profit or local associations; those that have been co-developed by companies and consumers; tourism or adventure projects, rock concerts, and cultural events; those that have been largely developed by the companies where consumers are immersed in a hyper-real context, such as fashion, sports, brands, edutainment, and retail. Broad and comprehensive, this book provides a challenging vision of the consumption experience, which is an invaluable tool for all those studying marketing and consumer behaviour.
