*Exiles of Desire* Juan Felipe Herrera, 1985      **Exiles from Desire** Glenda M. Prosser, 2017      **Lacanian Psychoanalysis** Gertrudis Van De Vijver, Jos Antonius Maria De Kroon, Rémy Potier, 2020-04-01      **Biblical Terror** Jeremiah W. Cataldo, 2016-12-01 This book is open access and available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com) It is funded by Knowledge Unlatched For biblical authors and readers law and restoration are central concepts in the Bible but they were not always so To trace out the formation of those biblical concepts as elements in defensive strategies Cataldo uses as conversational starting points theories from Zizek Foucault and Deleuze all of whom emphasize relation and difference This work argues that the more modern assumption that biblical authors wrote their texts presupposing a central importance for those concepts is backwards On the contrary law and restoration were made central only through and after the writing of the biblical texts in particular those that were concerned with protecting the community from threats to its identity as the remnant Modern Bible readers Cataldo argues must renegotiate how they understand law and restoration and come to terms with them as concepts that emerged out of more selfish concerns of a community on the margins of imperial political power

*Avance*, 1984      **Ezekiel and the Ethics of Exile** Andrew Mein, 2006 Whereas much recent work on the ethics of the Hebrew Bible addresses the theological task of using the Bible as a moral resource for today this book aims to set Ezekiel's ethics firmly in the social and historical context of the Babylonian Exile The two moral worlds of Jerusalem and Babylonia provide the key Ezekiel explains the disaster in terms familiar to his audience's past experience as members of Judah's political elite He also provides ethical strategies for coping with the more limited possibilities of life in Babylonia which include the ritualization of ethics an increasing emphasis on the domestic and personal sphere of action and a shift towards human passivity in the face of restoration Thus the prophet's moral concerns and priorities are substantially shaped by the social experience of deportation and resettlement They also represent a creative response to the crisis providing significant impetus for social cohesion and the maintenance of a distinctively Jewish community      *The Dialectics of Exile* Sophia A. McClennen, 2004 The history of exile literature is as old as the history of writing itself Despite this vast and varied literary tradition criticism of exile writing has tended to analyze these works according to a binary logic where exile either produces creative freedom or it traps the writer in restrictive nostalgia *The Dialectics of Exile* Nation Time Language and Space in Hispanic Literatures offers a theory of exile writing that accounts for the persistence of these dual impulses and for the ways that they often co exist within the same literary works Focusing on writers working in the latter part of the twentieth century who were exiled during a historical moment of increasing globalization transnational economics and the theoretical shifts of postmodernism Sophia A McClennen proposes that exile literature is best understood as a series of dialectic tensions about cultural identity Through comparative analysis of Juan Goytisolo Spain Ariel Dorfman Chile and Cristina Peri Rossi Uruguay this book explores how these writers represent exile identity Each chapter addresses dilemmas central to debates over

cultural identity such as nationalism versus globalization time as historical or cyclical language as representationally accurate or disconnected from reality and social space as utopic or dystopic McClennen demonstrates how the complex writing of these three authors functions as an alternative discourse of cultural identity that not only challenges official versions imposed by authoritarian regimes but also tests the limits of much cultural criticism
