Expats In Indonesia Guide To Living Conditions And Costs:

Transnational Lives Anne-Meike Fechter, 2016-02-24 Privileged migrants such as expatriates living abroad are typically associated with lives of luxury in exotic locations This fascinating and in depth study reveals a more complex reality By focusing on corporate expatriates the author provides one of the first book length studies on transnationalism from above The book draws on the author s extended research among the expatriate community in Jakarta Indonesia The findings which relate to expatriate communities worldwide provide a nuanced analysis of current trends among a globally mobile workforce While acknowledging the potentially empowering impact of transnationalism the author challenges current paradigms by arguing that the study of elite migration shows that transnational lives do not always entail fluid identities but the maintenance of boundaries of body race and gender The rich ethnographic data adds a critical dimension to studies of migration and transnationalism filling a distinct gap in terms of theory and ethnography Written in an engaging and accessible style the book will be of interest to academics and students particularly in anthropology migration studies and human geography

Islamic law in Aceh has placed restrictions on women's freedom paradoxically it has not prevented them from engaging in public life It argues that the democratisation of Indonesia which allowed Islamisation to occur continues to act as an important factor shaping Islamisation's current trajectory that the introduction of Islamic law has motivated women's NGOs and other elements of civil society to become more involved in wider discussions about the future of sharia in Aceh and that Indonesia's recent decentralisation policy and growing local Islamism have enabled the emergence of different religious and local adat practices which do not necessarily correspond to overall national trends
