**Graphic Design in Museum Exhibitions** Jona Piehl, 2020-12-30 Graphic Design in Museum Exhibitions offers an in depth analysis of the multiple roles that exhibition graphics perform in contemporary museums and exhibitions Drawing on a study of exhibitions that took place at the Victoria and Albert Museum London the Museum of London and the Haus der Geschichte Bonn Piehl brings together approaches from museum studies design practice and narrative theory to examine museum exhibitions as multimodal narratives in which graphics account for one set of narrative resources The analysis underlines the importance of aspects such as accessibility and at the same time problematises conceptualisations that focus only on the effectiveness of graphics as display device by drawing attention to the contributions that graphics make towards the content on display and to the ways in which it is experienced in the museum space Graphic Design in Museum Exhibitions argues for a critical reading of and engagement with exhibition graphic design as part of wider debates around meaning making in museum studies and exhibition making practice As such the book should be essential reading for academics researchers and students from the fields of museum and design studies Practitioners such as exhibition designers graphic designers curators and other exhibition makers should also find much to interest them in the book

[Histories of Exhibition Design in the Museum](#) Kate Guy, Hajra Williams, Claire Wintle, 2023-11-30 Histories of Exhibition Design in the Museum Makers Process and Practice offers a new model for understanding exhibition design in museums as a human and material process It presents diverse case studies from around the world from the nineteenth century to the recent past It moves beyond the power of the finished exhibition over both objects and visitors to highlight historic exhibition making as an ongoing task of adaptation experimentation and interaction that involves intellectual creative and technical choices Attentive to hierarchies of ethnicity race class gender sexuality and ableism that have informed exhibition design and its histories the volume highlights the labour involved in making museum exhibitions It presents design as filled with personal and professional demands on the body senses and emotions Contributions from historians anthropologists and exhibition makers focus on histories of identity collaboration and hierarchy

behind the scenes of the museum They argue for an emphasis on the everyday objects of museum design and the importance of a diverse range of actors within and beyond the museum from carpenters and label writers to volunteers and local communities Histories of Exhibition Design in the Museum offers scholars students and professionals working across the museum and design sectors insight into how past methods still influence museums today Through a postcolonial and decolonial lens it reveals the lineage of current processes and supports a more informed contemporary practice
