be prompted to ask as to what features distinguish it from a tangerine That is what are those distinctive qualities essentially immaterial that will not make me call an existential Satsuma a tangerine What the inquirer is demanding is simply something more than mere the Satsuma or any of the accidental features like colour taste etc Questions have also been raised in terms of what actually exists as against what is believed to exist The discourse quickly like wild fire moved from the level of mere conceptualizing the terms to the level of philosophers trying to find out which of essence and existence precedes each other In other words granted at least at level of assumption that both human and objects exist philosophers are asking whether their essence precedes their existence The battle to resolve this crisis of concepts pitted modern Christian philosophers like Bishop George Berkeley and Immanuel Kant against contemporary existentialists like Jean Paul Sartre and Martin Heidegger The former school led by Berkeley in its submission had argued that essence precedes existence while the latter championed by extensively by Sartre disagrees saying existence precedes essence However there are other variations to the discourse but it is sufficient for the scope of this paper to limit discussion to these two with more emphasis on Sartre

[Experience and Empiricism](#) Russell Ford,2022-11-15 A clarifying examination of Gilles Deleuze s first book shows how he would later transform the problem of immanence into the problem of difference Despite the wide reception Gilles Deleuze has received across the humanities research on his early work has remained scant Experience and Empiricism remedies that gap with a detailed study of Deleuze s first book Empiricism and Subjectivity which is devoted to the philosophical project of David Hume Russell Ford argues that this work is poorly understood when read simply as a stand alone study on Hume Its significance only becomes apparent within the context of a larger problematic that dominated and continues to inform modern European philosophy the conceptual constitution of a purely immanent account of existence While the importance of this debate is recognized in contemporary scholarship its genealogy including Deleuze s place within it has been underappreciated This book shows how Deleuze directly engages in an ongoing debate between his teachers Jean Wahl and Jean Hyppolite over experience and empiricism an intervention that restages the famous encounter between rationalism and empiricism that yielded Kant s critical philosophy What Deleuze effectively asks might have happened had Hume been the one roused from his empirical dogmatic slumber by the rationalist challenge of Kant [Existential Humanistic Psychology](#) Thomas C. **Existentialism and Human Emotions** Jean-Paul Sartre,1985 Proposes that individuals must create their own values take responsibility for their actions and find a sense of meaning while living in a universe without purpose *French Existentialism* Frederick Kingston,1961-12-15 In this study the author makes a comparison between the two main types of existentialism the Christian and the non Christian The comparison is made on four levels first the common situation second the possibility and means of communication third the chosen methods of philosophy and fourth the attitude and interpretations in relation to similar subjects Although the French existentialists have been greatly influenced by Kierkegaard and by contemporary existentialist thought in Germany Switzerland Italy Spain and the United States the study is limited to the existentialism of contemporary French writers France in the last fifty years has experienced some of the most crucial events of her history and this common setting for both Christian and non Christian man turns to Christianity and another militant atheism It is particularly in France that the split is most clearly made between these two varieties of existentialist thought Dr Kingston handles the issues in a fair and honest way neither concealing his own position nor dealing unfairly with those of whom he is most critical The intelligent English reader lay or academic will find this an excellent introduction to a whole area of modern French life and thought with which he is unlikely to be well acquainted
