Existentialism Versus Marxism:

Existentialism Versus Marxism George Edward Novack,1966 *Existentialism versus Marxism* George Novack,1966

Between Existentialism and Marxism Jean-Paul Sartre,2008-01-17 This book presents a full decade of Sartre's work from the publication of the *Critique of Dialectical Reason* in 1960 the basic philosophical turning point in his postwar development to the inception of his major study on Flaubert the first volumes of which appeared in 1971 The essays and interviews collected here form a vivid panorama of the range and unity of Sartre's interests since his deliberate attempt to wed his original existentialism to a rethought Marxism A long and brilliant autobiographical interview given to *New Left Review* in 1969 constitutes the best single overview of Sartre's whole intellectual evolution Three analytic texts on the US war in Vietnam the Soviet invasion of Czechoslovakia and the lessons of the May Revolt in France define his political positions as a revolutionary socialist Questions of philosophy and aesthetics are explored in essays on Kierkegaard Mallarmé and Tintoretto Another section of the collection explores Sartre's critical attitude to orthodox psychoanalysis as a therapy and is accompanied by rejoinders from colleagues on his journal *Les Temps Modernes* The volume concludes with a prolonged reflection on the nature and role of intellectuals and writers in advanced capitalism and their relationship to the struggles of the exploited and oppressed classes *Between Existentialism and Marxism* is an impressive demonstration of the breadth and vitality of Sartre's thought and its capacity to respond to political and cultural changes in the contemporary world

Herbert Marcuse and the Crisis of Marxism Douglas Kellner,1984 Critical overview of the entirety of Marcuse's work and discusses his enduring importance Kellner had extensive interviews with Marcuse and provides hitherto unknown information about his road to Marxism his relations with Heidegger and Existentialism his involvement with the Frankfurt School and his reasons for appropriating Freud in the 1950s In addition Kellner provides a novel interpretation of the genesis and structure of Marcuse's theory of one dimensional society of the development of his political theory and of the role of aesthetics in his critical theory *Marxism and the Existentialists* Raymond Aron,1969 Essays Bibliographical footnotes

The Existentialist Marxism of Jean-Paul Sartre James Lawler,1976 The title of this book may be misleading if it leads one to expect a study of Sartre's writings that primarily stresses Sartre's own interpretation of Marxism There is certainly an attempt to explain Sartre's existentialist interpretation of Marxism and to provide a presentation which is as accurate as possible The title however is meant to suggest a question Is the combination of existentialism and Marxism a valid one from the point of view of Marxism Is existentialist Marxism a real unity or is it a false juxtaposition of antagonistic theories The title should perhaps be followed by a question mark And yet if this question is to be answered another question must be asked What is Marxism Does it have a definite reality or is Marxism something that only exists in the eye of the beholder The aim of this study is to answer both of these sets of questions *Sartre and Marxism* Pietro Chiodi,1976 *A Commentary on Jean-Paul Sartre's Critique of Dialectical Reason* Joseph S. Catalano,2013-01-17 Sartre's *Critique of Dialectical Reason*

ranks with *Being and Nothingness* as a work of major philosophical significance but it has been largely neglected. The first volume published in 1960 was dismissed as a Marxist work at a time when structuralism was coming into vogue; the incomplete second volume has only recently been published in France. In this commentary on the first volume, Joseph S. Catalano restores the *Critique* to its deserved place among Sartre's works and within philosophical discourse as a whole. Sartre attempts one of the most needed tasks of our times: Catalano asserts the delivery of history into the hands of the average person. Sartre's concern in the *Critique* is with the historical significance of everyday life. Can we, he asks, as individuals or even collectively, direct the course of our history? A historical context for our lives is given to us at birth but we sustain that context with even our most mundane actions: buying a newspaper, waiting in line, eating a meal. In looking at history, Sartre argues, reason can never separate the historical situation of the investigator from the investigation. Thus, reason falls into a dialectic, always depending upon the past for guidance but always being reshaped by the present. Clearly showing the influence of Marx on Sartre's thought, the *Critique* adds the historical dimension lacking in *Being and Nothingness*. In placing the *Critique* within the corpus of Sartre's philosophical writings, Catalano argues that it represents a development rather than a break from Sartre's existentialist phase. Catalano has organized his commentary to follow the *Critique* and has supplied clear examples and concrete expositions of the most difficult ideas. He explicates the dialogue between Marx and Sartre that is internal to the text and he also discusses Sartre's *Search for Method*, which is published separately from the *Critique* in English editions.

The Existential Marxism of Jean-Paul Sartre James Lawler, 1976. The title of this book may be misleading if it leads one to expect a study of Sartre's writings that primarily stresses Sartre's own interpretation of Marxism. There is certainly an attempt to explain Sartre's existentialist interpretation of Marxism and to provide a presentation which is as accurate as possible. The title however is meant to suggest a question: Is the combination of existentialism and Marxism a valid one from the point of view of Marxism? Is existentialist Marxism a real unity or is it a false juxtaposition of antagonistic theories? The title should perhaps be followed by a question mark. And yet if this question is to be answered, another question must be asked: What is Marxism? Does it have a definite reality or is Marxism something that only exists in the eye of the beholder? The aim of this study is to answer both of these sets of questions.

The First Marx Peter Lamb, Douglas Burnham, 2018-11-15. Marx's early work is well known and widely available but it is usually interpreted as at best a kind of stepping stone to the Marx of *Capital*. This book offers something completely different: it reconstructs from his first

writings spanning from 1835 to 1846 a coherent and well rounded political philosophy The influence of Engels upon the development of that philosophy is discussed This it is argued was a philosophy that Marx could have presented had he put the ideas together as he hinted was his eventual intention Had he done so this first Marx would have made an even greater contribution to social and political philosophy than is generally acknowledged today Arguments regarding revolutionary change contradiction and other topics such as production alienation and emancipation contribute to a powerful analysis in the early works of Marx one which is worthy of discussion on its own merits This analysis is distributed among a range of books papers letters and other writings and is gathered here for the first time Marx s work of the period was driven by his commitment to emancipation Moreover as is discussed in the conclusion to this book his emancipatory philosophy continues to have resonance today This new book presents Marx in a unique new light and will be indispensable reading for all studying and following his work
