Everyday Life Painting:

American Genre Painting Elizabeth Johns, 1991-01-01 American genre painting flourished in the thirty years before the Civil War a period of rapid social change that followed the election of President Andrew Jackson It has long been assumed that these paintings of farmers western boatmen and trappers blacks both slave and free middle class women urban urchins and other everyday folk served as records of an innocent age reflecting a Jacksonian optimism and faith in the common man In this enlightening book Elizabeth Johns presents a different interpretation arguing that genre paintings had a social function that related in a more significant and less idealistic way to the political and cultural life of the time Analyzing works by William Sidney Mount George Caleb Bingham David Gilmore Blythe Lilly Martin Spencer and others Johns reveals the humor and cynicism in the paintings and places them in the context of stories about the American character that appeared in sources ranging from almanacs and newspapers to joke books and political caricature She compares the productions of American painters with those of earlier Dutch English and French genre artists showing the distinctive interests of American viewers Arguing that art is socially constructed to meet the interests of its patrons and viewers she demonstrates that the audience for American genre paintings consisted of New Yorkers with a highly developed ambition for political and social leadership who enjoyed setting up citizens of the new democracy as targets of satire or condescension to satisfy their need for superiority It was this network of social hierarchies and prejudices and not a blissful celebration of American democracy that informed the look and the richly ambiguous content of genre painting

When Art Makes News Katia Dianina,2012-11-15 From the time the word kul tura entered the Russian language in the early nineteenth century Russian arts and letters have thrived on controversy At any given time several versions of culture have coexisted in the Russian public sphere The question of what makes something or someone distinctly Russian was at the core of cultural debates in nineteenth century Russia and continues to preoccupy Russian society to the present day When Art Makes News examines the development of a public discourse on national self representation in nineteenth century Russia as it was styled by the visual arts and popular journalism Katia Dianina tells the story of the

missing link between high art and public culture revealing that art became the talk of the nation in the second half of the nineteenth century in the pages of mass circulation press At the heart of Dianina s study is a paradox how did culture become the national idea in a country where few were educated enough to appreciate it Dianina questions the traditional assumptions that culture in tsarist Russia was built primarily from the top down and classical literature alone was responsible for imagining the national community When Art Makes News will appeal to all those interested in Russian culture as well as scholars and students in museum and exhibition studies **Still Life Painting Studio** Elizabeth
