

MAP-GRID REFERENCE SYSTEM (THE TOOLS OF GEOGRAPHY)

A. LINES OF LATITUDE (PARALLELS)

1. **Parallels** – lines
2. Measure the distance (in degrees, minutes, and seconds north and south) of the equator to degrees latitude, the degree latitude possible
3. The highest latitude possible is 90 degrees north (North Pole) and south (South Pole)
4. Specific Names
 - a. The Tropic of Cancer and Tropic of Capricorn lie at 23.5 degrees north and south, respectively
 - b. The Arctic and Antarctic Circles lie at 66.5 degrees north and south, respectively

B. LINES OF LONGITUDE (MERIDIANS)

1. Run north-south
2. Measure the distance (in degrees, minutes, and seconds east and west) of the Prime Meridian (0 degrees longitude)
3. The Prime Meridian is an arbitrary reference line that runs through Greenwich, England
4. The highest longitude possible is 180 degrees (east and west), called the International Date Line

C. MAP PROJECTIONS

1. **Cylindrical projection** – projection of the earth onto a cylinder (e.g., navigation chart)
2. **Conic projection** – projection of sphere onto a cone (parallels are spaced evenly along the central meridian)
3. **Planar (azimuthal)** – projection of a globe-grid onto a plane (used in atlases)

D. PATTERNS AND QUANTITIES ON MAPS

1. **Cartography** – construction of maps
2. **Scale** – ratio between the measurement of something on a map and the corresponding measurement on the earth (e.g., 1 inch to 1 mile)
3. **Topographical features** – portray the surface terrain of small areas, usually in detail (e.g., routes, roads, rivers, streams)
 - a. **Contour line** – line along which all points are of equal elevation above or below a datum (single plane, usually indicating mean sea level)
 - b. **Contour interval** – vertical distance separating two adjacent contour lines

PHYSICAL GEOGRAPHY – LAND FORMATION

A. CONTINENTS – gross divisions of the land on the globe (Asia, Africa, North America, South America, Antarctica, Europe, Australia/Oceania)

B. OROGRAPHY – the study of landform origin, characteristics, and evolution and their processes

C. PLATE TECTONIC CONCEPTS

1. **Block faults** are normal-sense-faulting, rift-sense, and reverse-sense
2. **Formation of the rock cycle** and crust are separate, closely related "phases"
3. **Diastrophism**
 - a. **Warping** – gentle bending of the earth's crust
 - b. **Folding** – more intense bending of the earth's crust – produces anticlines (fold) – series of upfolds (anticlines) and downfolds (synclines), referred to as ridge and valley topography
 - c. **Thrusting** – break in the earth's crust, which can occur as a rock mass is pulled apart (horizontal or normal fault) by compressive forces in the crust – compressional faults occur where a rock mass is pushed or compressed and a thrust occurs, usually moving one part of the rock mass to the top over the other

D. SOFT SOILS

1. **Aggravated rocks** – formed by cooling and hardening of molten material
 - a. **Magma** – moltenized molten material
 - b. **Lava** – after ground molten material
2. **Sedimentary rocks** – composed of particles of gravel, sand, silt (fine particles of soil), and clay that were eroded from other rocks (or, shells, corals)
3. **Metamorphic rocks** – igneous and sedimentary rocks transformed due to heat, pressure, or chemical reaction (e.g., marble, slate)

E. OROGRAPHIC EFFECTS

1. **Föhn winds** high places and hills to low places
2. **Westerling** – breaking down rock mass into smaller particles (physical and chemical)

F. DEGLACIATION

1. **Movement of continental and alpine ice** and snow that rules and shapes topography
2. **North America and Europe** were shaped by this process during the Great Ice Age

PHYSICAL GEOGRAPHY – WATER

A. OCEANS

1. 71% of the earth's surface is covered by oceans and marginal seas
2. By volume, oceans and related sea for constitute 97.027% of water on earth

B. RIVER SYSTEM COMPOSITION

1. **Main sources of the rivers**
 - a. **Glaciation** – small bodies of water that feed into the main stream of the river
 - b. **Mountainous** – channels carrying water from the snow-covered of the river
 - c. **Mountains** – where the river originates into another body of water
 - d. **Watersheds** – will depend on the results of a river
 - a. In the river originates into another body of water the flow down, dropping flow will submerge
 - b. **River outlets** – some divided by a river system

PHYSICAL GEOGRAPHY – WEATHER

A. AIR TEMPERATURE

1. **Controlled by the intensity and duration of radiation from the sun (solar energy)**
2. **Angle at which the sun's rays strike the earth, the number of daylight hours, the amount of water vapor in the air, the degree of cloud cover, the elevation above sea level, and the degree of air movement all affect the air temperature at any given location**
3. **Air temperature decreases with increasing elevation**

B. AIR PRESSURE

1. **The weight of the air as measured at a point on the earth's surface (barometric pressure)**
2. **Pressure gradients occur with differences in air pressure between areas that include air to flow from areas of high to areas of low pressure**
3. **Convectional winds** from the flow of air that replace warm, rising air and the rigid movement of replacement air
4. **Wind belts**
 - a. Prevailing surface wind movements depending on pressure gradients (e.g., jetstream, monsoon)

C. ATMOSPHERIC MOISTURE

1. **Precipitation is water (can be rain, sleet, snow, hail) deposited on the earth's surface**
 - a. **Conventional precipitation** – caused by rising, heated, moisture-laden air (updraft) (air cools)
 - b. **Orographic precipitation** – occurs as moist air is forced to rise because of water obstruction (hill or mountain)
 - c. **Convective (thunder) precipitation** – occurs in mid-latitudes as cool and warm air masses meet

PHYSICAL GEOGRAPHY – CLIMATE

A. DRY CLIMATES

1. **Desert**
 - a. High daily temperature range
 - b. Less than 10 inches of annual precipitation
2. **Steppe**
 - a. Transition from dry to humid climates, semi-arid annual precipitation 10-20 inches
3. **Temperate subtropical (Mediterranean)**
 - a. Mild rainy winters, hot, dry summers, warm climate with long growing season

B. WET CLIMATES (LOW LATITUDES)

1. **Tropical rain forest**
 - a. Universally occurred in the equator, rainy and warm, soil too distant dry seasons
 - b. Heavy rainfall causes leaching of soils, both nutrients become thin and "rock-like" containing materials such as aluminum and iron oxide
2. **Tropical savanna**
 - a. Storm and wet, but not as much as rain forest, no distinct dry season

C. HUMID CLIMATES (MID LATITUDES)

1. **Temperate deciduous**
 - a. Located on the western coast of large landmasses in middle latitudes
 - b. 30-60 inches, hot, humid summers
2. **Temperate continental**
 - a. Soils vary greatly, plenty of forests, but soils can be acidic
 - b. Located in the middle of large landmasses in the mid latitudes, no maritime influence, plenty of moisture, cold winters and hot summers are common

D. COLD CLIMATES

1. **Sub-Arctic**
 - a. Temperatures above 50°F for at least 1-3 months, heavy snowfalls are common
2. **Tundra**
 - a. Land of the permafrost
 - b. Monthly temperatures average below 50°F
3. **Alpine**
 - a. Coldest cold, less than 10 inches of precipitation annually

POPULATION GEOGRAPHY

A. DEMOGRAPHIC TRANSITION MODEL

- tracks the changing levels of human fertility and mortality over time. There is a relationship between population growth and economic development in stages
1. **Stage 1** – High birth rate, high death rate, and minimal population growth
 2. **Stage 2** – High birth rate, but death rate drops drastically
 3. **Stage 3** – Birth rate drops in response to high growth at Stage 2
 4. **Stage 4** – Birth and death rates continue to drop, creating almost no growth

B. MEASUREMENTS OF POPULATION

1. **Crude birth rate (CBR)** – annual number of live births per 1,000 population, regardless of sex, age
2. **Total fertility rate (TFR)** – more accurate, since it gives the average number of children that would be born to each woman if having her child-bearing years like those children of the current year's rate for women her age
3. **Crude death rate (CDR)** or **mortality rate** – annual number of deaths per 1,000 population
4. **Rate of natural increase** – the crude death rate is subtracted from the crude birth rate revealing the effects of immigration or emigration

C. WORLD POPULATION DISTRIBUTION PATTERNS

1. 50% of all people live north of the equator
2. 40% of people dwell in mid-latitudes (30°-60° north)

Examnotes For Geography Examnotes Introduction

In today's digital age, the availability of Examnotes For Geography Examnotes books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Examnotes For Geography Examnotes books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Examnotes For Geography Examnotes books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Examnotes For Geography Examnotes versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Examnotes For Geography Examnotes books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Examnotes For Geography Examnotes books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Examnotes For Geography Examnotes books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Examnotes For

Geography Examnotes books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Examnotes For Geography Examnotes books and manuals for download and embark on your journey of knowledge?

FAQs About Examnotes For Geography Examnotes Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Examnotes For Geography Examnotes is one of the best book in our library for free trial. We provide copy of Examnotes For Geography Examnotes in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Examnotes For Geography Examnotes. Where to download Examnotes For Geography Examnotes online for free? Are you looking for Examnotes For Geography Examnotes PDF? This is definitely going to save you time and cash in something you should think about.
