Evil Twins John Glatt, 1999-05-15 They give a whole new meaning to the phrase Dead Ringers Identical twins with the exact same genetic information are a fascinating study in human behavior It is a known fact that when separated at birth they will often end up with very similar lives without ever having met one another So it seems to follow that if one twin turns out to be a bad seed the other will also go to the dark side the shocking stories in Evil Twins prove this to be the case time and time again And even more astounding are stories of twins turning upon each other in furious rivalries that may date back to the womb Her is just a sampling of the compelling true stories about evil twins Sins of the mothers Harvard educated chemical engineer Jane Hopkins stabbed her two young children to death before killing herself six years after her twin sister Jean had tried to poison her own two children My brother s killer Identical twins Jeff and Greg Henry were close as brothers could be inventing their own language and often exchanging identities But they grew up to become violent alcoholics and on one fateful binge Jeff turned on his own twin brother and shot him in the heart with a shotgun Loathsome Lotharios Handsome charming twin brothers George and Stefan Spitzer went to Hollywood to become famous actors But their movie star good looks never landed them any parts except in the lurid home movies they shot of themselves raping the unconscious women they doped up on Roofies Evil twins Double the deadliness with eight pages of shocking photos

Omnibyte Simulation-multiverse Deal (The Compatible-with-ai-bot Version) Mr. Jeffrey Robert Palin Jr., Eric is given the opportunity to modify create a simulation world for himself and others to experience He can add magic rules and other things to his new simulation world and he can also change the laws of nature physics reality and anything else that he wants when it comes to his simulation world until the creation of his simulation world is completed with his modifications rules and creations continuing after his simulation world s completion for all who or that whenever are at his simulation world He

realized that he can connect the simulation world he created to other simulation worlds that were created modified by other people who were given the same opportunity Immerse into the Simulation multiverse as Eric and others realize the true nature of the opportunity that they were offered The Simulation is simply a passtime so that the people don t have prescious long parts of their lives whereby they re not being able to interact with people and not having great experiences in their lifetime It s like so that a Hospital patient who wakes up 30 years after first being a Hospital patient doesn t have to find out that they only have like 15 years left to complete their bucket list They might otherwise feel deprived of the life experiences that they could have had during those 30 years had they not been not awake as a Hospital patient

Deal's Worth Mr. Jeffrey Robert Palin Jr.,2025-11-09 Eric is given the opportunity to create and modify a simulation world Eric s world includes unique features intertwined systems mechanics and it connects to other user created worlds After falling into a unique medical condition the VRC a virtual reality corporation offers Eric a deal to enter and be a creator regarding the Simulation multiverse The Simulation multiverse is a man made nexus in which Eric AGIs and others are able to interact Later in Eric s Universe a character named Jeff searches for Eric Eric s completed world creation process had set the foundation for later adventures to occur enabling Jeff and others to engage with Eric s world and it s elements and features The Simulation serves as a recreational pastime activity and is also designed to prevent individuals from experiencing extended periods of isolation and missed life opportunities whereby it prevents such by addressing the concern of hospital patients who may awaken after prolonged hospitalized states such as a patient regaining consciousness after 30 years unconscious only to discover they have limited time remaining perhaps 15 years to accomplish their life goals Without such a simulation these individuals might feel profoundly deprived of three decades worth of potential experiences relationships and achievements they could have enjoyed had they remained conscious during their hospitalization
