Globalisation and Governance in India Harihar Bhattacharyya, Lion König, 2015-07-24 This book examines the impact of globalization on some vital aspects of Indian

politics its structures and processes and identifies the challenges to globalization itself in order to highlight India's complex and fascinating story. In 1991 India officially embraced the policy of neo-liberal reforms by signing the GATT agreement which exposed the country, its society, culture and institutions to the various forces of globalization. Globalization as such may not be new to India for the country has been embracing the influence of external cultures and civilisations for millennia but the post-1991 reforms policy marked a significant shift from a predominantly social welfare state and a command economy to a predominantly market-driven one. Through a range of disciplinary perspectives the authors analyse how India's version of secularism, communal harmony, nationhood, the public sphere, social justice and the rights of aboriginal communities came under attack from the forces of the new dispensation. The book goes on to show how globalisation in India has posed fresh challenges to political economy, democracy, federalism, decentralization, parliamentary system, judiciary and the parliamentary Left. Critically reflecting on themes in the context of India's globalisation that are local, regional, national and global, this book will be of interest to those in the fields of South Asian Politics, Globalisation and International Relations.

Global Media, Culture, and Identity Rohit Chopra, Radhika Gajjala, 2012-10-02. This edited volume examines the ways that global media shapes relations between place, culture and identity. Through the included essays, Chopra and Gajjala offer a mix of theoretical reflections and empirical case studies that will help readers understand how the media can shape cultural identities and conversely how cultural formations can influence the political economy of global media. The interdisciplinary international scholars gathered here push the discussion of what it means to do global media studies beyond uncritical celebrations of the global media technologies or globalization as well as beyond perspectives that are a priori dismissive of the possibilities of global media. Some of the key questions and themes that the international contributors explore within the text include: Is the global audience of global television the same as the global audience of the internet? Can we conceptualize the global culture/media identity dynamic beyond the discourse of postcolonialism? How does the globalization of media affect feelings of nationalism? How is the growth of a consumer global middle class spread and resisted through media? Global Media Identity and Culture takes a comparative media approach to addressing these and other issues across media forms including print, television, film and new media.
