**Signifying and Understanding** Susan Petrilli, 2009-12-15 The theory of signifying significs formulated and introduced by Victoria Welby for the first time in 1890s is at the basis of much of twentieth century linguistics as well as in other language and communication sciences such as sociolinguistics psycholinguistics translation theory and semiotics Indirectly the origins of approaches methods and categories elaborated by analytical philosophy Wittgenstein himself Anglo American speech act theory and pragmatics are largely found with Victoria Lady Welby Indeed it is no exaggeration to say in addition that Welby is the founding mother of semiotics Some of Peirce s most innovative writings for example those on existential graphs are effectively letters to Lady Welby She was an esteemed correspondent of scholars such as Bertrand Russell Charles K Ogden Herbert G Wells Ferdinand S C Schiller Michel Br al Andr Lalande the brothers Henry and William James and Peirce as well as Frederik van Eeden Mary Everst Boole Ferdinand T nnies and Giovanni Vailati Her writings directly inspired the Signific Movement in the Netherlands important for psycholinguistics linguistics and semantics and inaugurated by van Eeden and developed by such authors as Gerrit Mannoury This volume containing introductions and commentaries presents a selection from Welby s published and unpublished writings delineating the whole course of her research through to developments with the Significs Movement in the Netherlands and still other ramifications contemporary and subsequent to her A selection of essays by first generation significians contributing to the Signific Movement in the Netherlands completes the collection testifying to the progress of significs after Welby and even independently from her This volume contributes to the reconstruction on both the historical and theoretical levels of an important period in the history of ideas The aim of the volume is to convey a sense of the theoretical topicality of significs and its developments especially in semiotics and in particular its thematization of the question of values and the connection with signs meaning and understanding therefore with human verbal and nonverbal behavior language and communication
