**Medieval English Political Writings** James M Dean, 1996-04-01 This volume collects poems and historical documents relevant to understanding the political climate of fourteenth and fifteenth century Britain many of which have been out of print for a century This new edition geared towards classroom use with its notes introductions gloss and glossary opens up the fascinating study of late medieval English history This volume contains five sections Poems of Political Prophecy Anticlerical Poems and Documents Literature of Richard II's Reign and the Peasants Revolt Poems against Simony and the Abuse of Money and Plowman Writings all tied together by a common attitude of satire and complaint and a distrust of those who may abuse power This volume would make an excellent source for a class on English satire or late medieval politics
