German High Command At War:

Inside Hitler's High Command Geoffrey P. Megargee, 2000 Challenging previous accounts Megargee shatters the myth that German generals would have prevailed in World War II if only Hitler had not meddled in their affairs Instead he observes that the military's strategic ideas were no better than Hitler's and often were worse 20 photos *The German High Command at War* Robert B. Asprey, 1994 This double biography of the joint leaders of Germany's General Staff provides an account of the Great War from the German point of view and sheds light on the nation's disastrous defeat as a result of expanded military egos unchecked by civil authority Even when Hindenburg led his troops home after the 1918 armistice he declared that the German army had been not beaten but destroyed the origin of the stab in the back concept that became Hitler's rallying cry Both Hindenburg and Ludendorff rejected all overtures for a compromise peace and in their different ways led their country into total war and ruin Robert Asprey's other books include *War in the Shadows Semper Fidelis A History of the Marines in World War II* and *Frederick the Great The Magnificent Enigma* [The German High Command at War](#) Robert B. The Silent Dictatorship Martin Kitchen,2019-06-26 Originally published in 1976 and based upon the extensive use of original archival material this book provides a detailed account of the 2 years in which the German army enjoyed unprecedented power and influence The rise of Hindenburg and Ludendorff is seen against the background of the failure of the army to win a decisive victory in the early stages of the war The book provides insights into the dynamics of German militarism and imperialism and is an important contribution to the discussion of the continuity of German history

Targeting Civilians in War Alexander B. Downes,2011-05-15 Accidental harm to civilians in warfare often becomes an occasion for public outrage from citizens of both the victimized and the victimizing nation In this vitally important book on a topic of acute concern for anyone interested in military strategy international security or human rights Alexander B Downes reminds readers that democratic and authoritarian governments alike will sometimes deliberately kill large numbers of civilians as a matter of military strategy What leads governments to make such a choice Downes examines several historical cases British counterinsurgency tactics during the Boer War the starvation blockade used by the Allies against Germany in World War I Axis and Allied bombing campaigns in World War II and ethnic cleansing in the Palestine War He concludes that governments decide to target civilian populations for two main reasons desperation to reduce their own military casualties or avert defeat or a desire to seize and annex enemy territory When a state s military fortunes take a turn for the worse he finds civilians are more likely to be declared legitimate targets to coerce the enemy state to give up When territorial conquest and annexation are the aims of warfare the population of the disputed land is viewed as a threat and the aggressor state may target those civilians to remove them Democracies historically have proven especially likely to target civilians in desperate circumstances In *Targeting Civilians in War* Downes explores several major recent conflicts including the 1991 Persian Gulf War and the American led invasion of Iraq in 2003 Civilian casualties occurred in each campaign but they were not the aim of military action In these cases Downes maintains the achievement of quick and decisive victories against overmatched foes allowed democracies to win without abandoning their normative beliefs by intentionally targeting civilians Whether such restraint can be guaranteed in future conflicts against more powerful adversaries is however uncertain During times of war democratic societies suffer tension between norms of humane conduct and pressures to win at the lowest possible costs The painful lesson of *Targeting Civilians in War* is that when these two concerns clash the latter usually prevails **Germany's**
