

## Back View

The underband should sit firmly around your ribcage, level at the front and back and parallel to the ground. Too tight then you need a larger band, if it is rising up then a smaller one.

## Front View

The centre front of your bra should sit flush against your ribcage. If yours isn't then try a larger cup size.

The correct band size will sit snugly and not move whether you raise your arms up or have them by your side.

## Side View

The correct cup size will give you an even, rounded shape with no dreaded quad-boob in sight!

The underwire should extend fully behind your breast tissue, after you have done the Scoop and Swoop so there is no bulge or squashing under the arm.

## Side Angled View

If you're spilling out of your cup a little or a lot, try a bigger cup size.
