The Golden Age Restored, Etc Henricus MADATHANUS (pseud. [i.e. Adrianus Mynsicht.]),1893 The Golden Age Restored Henry Madathanas,2011-12-04 To the Worthy and Christian Reader BELOVED and pious reader above all ye who are Sons of Wisdom and the Doctrine some years ago Almighty God in answer to my daily prayers opened my eyes by the light of His Holy Spirit Who was sent us through Christ by the Father and from Whom we receive all wisdom and enabled me to discover the True Centre in the Centre of the Triangle and the one true Matter of the precious Philosopher s Stone so that I now hold it in my hands but it took me five years longer to discover how the blood of the Red Lion and the glue of the White Eagle were to be extracted and how these were to be mixed in their natural proportions enclosed sealed and committed to the secret fire Nor did I even then find the arcanum without constant and untiring application I have indeed studied the writings parables and various figures of the philosophers with singular industry and laboured hard to solve their manifold wonderful enigmas most of which are simply the vain products of their imaginations It was long before experience taught me that all their obscure verbiage and high pretensions are mere folly and empty phantasms as is amply testified by our leading Sages

The Golden Age Restored Matthew S. Dentice,2012-04-01 In some age of mankind the world has destroyed itself Civilization is a false veneer at its core it has become corrupt and hollow But even in the gloom of mankind s darkest hour a light shines burning with the intensity of an exploding comet Is this truly the end of the world or are these calamities merely the birth pangs of a new world age Can the world yet find some means of saving itself from itself And finally could the great rebirth foretold in prophecies and spoken of in legends finally come to be Has the time truly come for the Golden Age Restored

Drama and Pedagogy in Medieval and Early Modern England Elisabeth Dutton,James McBain,2015-10-28 This wide ranging volume explores relationships between drama and pedagogy in the medieval and early modern periods with contributions from an international eld of scholars including a number of leading authorities Across the medieval and early

modern periods drama is seen to be a way of disseminating theological and philosophical ideas In medieval England when literacy was low and the liturgy in Latin drama translated and transformed spiritual truths embodying them for a wider audience than could be reached by books alone In Tudor England humanist belief in the validity and potential of drama as a pedagogical tool informs the interlude and examples of dramatized instruction abound on early modern stages Academic drama is a particularly pregnant locus for the exploration of drama and pedagogy universities and the Inns of Court trained some of the leading playwrights of the early theatre but also supplied methods and materials that shaped professional playhouse compositions
