

Transparency & Trust

AI systems should be built using trust modeling, with the ability to give reasons and explanations for the choices they make and actions they do. This openness fosters trust and enables consumers to comprehend the AI system's reasoning.

Security

It focuses on ensuring the integrity, confidentiality, and availability of AI systems while addressing privacy concerns. By implementing security measures, organizations can safeguard sensitive data, mitigate risks, and build trust in AI and resistant AI systems.

Management

Creating robust model governance and management procedures for AI systems is a key component of AI TRISM. This involves resolving security, privacy, and data protection issues as well as putting policies, standards, and procedures in line with legal and regulatory obligations.
