Designing solutions becomes considering various constraints, such as budget, time, and safety concerns. Community members have a part of a solution might face challenges, however, and it is important to weigh these trade-offs carefully. For example, creating materials for a water filter may affect its cost and ease of use, which influenced the effectiveness of the solution.

After identifying a solution, determining how it works, what constraints affected it, and any compromises that have already been or should involve on the way.
