Findout Constellations

What:
There is a lot of stars that make up constellations. Learning to find constellations is a fun way to learn about the night sky. The patterns of stars in the sky are called constellations. They are named after things like animals, people, and objects.

How:
You can find constellations by looking at the night sky. Use a star chart or a constellation finder to help you. You can also use a telescope to see the stars more clearly.

Why:
Knowing the names of constellations can help you learn more about the night sky. It can also help you understand the history of astronomy.

Where:
Constellations can be found in the night sky. They are spread out across the sky.
