100 Important Life Lessons for Everyone Gina Johnson Smith, 2003-06-25 Many of life's lessons aren't clearly defined for us. Most of us move from day to day getting the knocks that come with learning by experience. And while experience can be the best teacher, it isn't necessarily the easiest teacher and shouldn't be the only teacher. **100 Important Life Lessons for Everyone** presents wisdom in a straightforward, no-nonsense way. These timeless truths of life will help you to wake from inaction, take the steps necessary to renew your own mind while navigating your way through life with the wisdom necessary to improve the quality of your whole life. The Unknown Reality, Vol 2 Jane Roberts, 2011-07-08 From the Bestselling Author of *Seth Speaks*. In this second volume of *The Unknown Reality*, Seth radically expands our conceptions of self by showing us that the human personality is literally infinite in its scope and potential. He discloses precisely how probable realities combine to create our waking lives and how our higher selves make decisions regarding our everyday existence. In a far-reaching exploration of the dynamics of desire and free will, he asserts that each atom, molecule, and cell has its own consciousness and powers of choice. With humor and simple analogies, Seth leads us beyond our ordinary level of awareness into a spectacular discovery of the multidimensional nature of the self, including Consciousness units as the basis of our universe. The relevance of extrasensory perception in understanding our world. The worlds we visit in dreams and out-of-body states. Dreaming as a science to create present and future realities. Families of consciousness we choose to belong to. Practical methods for exploring your own unknown reality. There is an unknown reality I am part of it and so are you. Each individual is a part of the unknown reality. To explore the unknown reality, you must venture within your own psyche, travel inward through invisible roads as you journey outward on physical ones. I hope that in this book, the reader can see the greater dimensions that touch ordinary living and sense the psyche's greater magic.

Jane Roberts, *Speaking for Seth*
