Environmental Policy Analysis For Decision Making:

Environmental Policy Analysis for Decision Making J. Loomis, Gloria Helfand, 2006-01-09

1 ENVIRONMENTAL POLICY ANALYSIS WHAT AND WHY Why environmental policy analysis Environmental issues are growing in visibility in local national and world arenas as a myriad of human activities leads to increased impacts on the natural world Issues such as climate change endangered species wilderness protection and energy use are regularly on the front pages of newspapers Governments at all levels are struggling with how to address these issues Environmental policy analysis is intended to present the environmental and social impacts of policies in the hope that better decisions will result when people have better information on which to base those decisions Conducting environmental policy analysis requires people who understand what it is and how to do it Interpreting it also requires those skills We hope that this book will increase the abilities both of analysts and of decision makers to understand and interpret the impacts of environmental policies Policy analysis books almost invariably begin by pointing out that policy analysis can take many forms This book is no different As you will see in Chapter 1 we consider policy analysis to be information provided for the policy process That information can take many forms from sophisticated empirical analysis to general theoretical results from summary statistics to game theoretic strategies

Environmental Policy Analysis for Decision Making J. Loomis, Gloria Helfand, 2014-01-15 Knowledge, Power, and Participation in Environmental Policy Analysis Rob Hoppe, William N. Dunn, This volume probes practical dilemmas and competing research perspectives in environmental policy analysis Scholars working in different fields research traditions societies and policy domains offer significant insights into the processes and consequences of environmental policy making

Part 1 Coping with Boundaries describes present day conflict between experts and greater public participation in environmental policy It shows that the institutionalization of increasingly complex environmental problems has led to a conflict between technocracy and democracy

Part 2 The Transnational Challenge examines modes of cooperation between grassroots movements scientists and regional authorities in the United States and Canada These and other modes of cooperation laid the foundations for the Great Lakes Water Quality Agreement increased the effectiveness of air pollution treaties and increased climate change

Part 3 Bio Hazards Policies and Paralysis deals with environmental problems closest to the everyday concerns of the public at large because they have immediate implications for food safety and other values

Part 4 The Citizens Perspective focuses on citizen vis vis environmental policy noting that in order to make policies work citizens must be willing and able to participate in policy making and cooperate in implementing environmental choices

Part 5 Confronting Ordinary and Expert Knowledge explores opportunities and constraints affecting public participation in evaluation of science

Part 6 Developments in Research Programming addresses such questions as whether scientists still have opportunities to do the research they want without being interrupted or disturbed by policy makers and other stakeholders

Part 7 Policy Sciences Aspirations explores different avenues for improving environmental policy

Volume

twelve in the PSRA series should inspire further investigations of the relations among knowledge power and participation in environmental policy It will be of timely interest to environmentalists policy makers scholars and the general public Matthijs Hisschemller is senior researcher at the Institute for Environmental Studies of the Free University in Amsterdam Rob Hoppe is professor and chair of the Policy Studies unit of University of Twente s Faculty of Public Administration and Public Policy William N Dunn is professor of Public Policy and Management in the Graduate School of Public and International Affairs University of Pittsburgh Jerry R Ravetz is director of the Research Methods Consultancy Ltd in London *Energy Abstracts for Policy Analysis* ,1979-11 Comparative Risk Assessment and Environmental Decision Making Igor Linkov,Abou Bakr Ramadan,2006-03-02 Decision making in environmental projects is typically a complex and confusing process characterized by trade offs between socio political environmental and economic impacts Comparative Risk Assessment CRA is a methodology applied to facilitate decision making when various activities compete for limited resources CRA has become an increasingly accepted research tool and has helped to characterize environmental profiles and priorities on the regional and national level CRA may be considered as part of the more general but as yet quite academic field of multi criteria decision analysis MCDA Considerable research in the area of MCDA has made available methods for applying scientific decision theoretical approaches to multi criteria problems but its applications especially in environmental areas are still limited The papers show that the use of comparative risk assessment can provide the scientific basis for environmentally sound and cost efficient policies strategies and solutions to our environmental challenges **Environmental Policy Analysis** Peter Nijkamp,Wilhelmus A. Hafkamp,1980 Methodology Macro and regional models Plan evaluation models Spatial environmental perception and choice models **A Guide for Reviewing Environmental Policy Studies** Steven J. Moss,1994 **Tools to Aid Environmental Decision Making** Virginia H. Dale,Mary R. English,2012-11-26 Environmental decision making is like politics mostly local In fact making decisions about the environment at the subnationallevel in state regional and local jurisdictions is a lot like politics For resolving environmental issues demands but often resists a balance between deeply held feelings and stark confrontations among opposing views This volume describes tools that should make the decision maker s lot a bit more tolerable The authors would be the last to suggest that these decision aiding tools will somehow bring a benign order to issues that reach to people s fundamental values What they can help do is to keep the debate focused on the important issues to serve up useful options and to narrow the range of disagreement Even this is a challenging assignment Still why bother The chief reason is that the locus of environmental decision making has in the past decade or so shifted from the national to the subnationallevel a convenient if colorless term to denote the hurly burly of environmental controversy outside the Washington Beltway For example New England has taken a regional stand on tropospheric ozone control and California requires automotive pollution controls that some other jurisdictions have partially adopted This shift is a profound but not unexpected result of the way environmental policy has evolved since the modern environmental movement began

around the late 1960s Back then the pendulum was swinging the other way *Environmental Policy Analysis with Limited Information* William H. Desvousges, F. Reed Johnson, H. Spencer Banzhaf, 1998 The transfer study a technique used in cost benefit analysis is an increasingly important tool used by government agencies to assess environmental regulatory policy This innovative book develops protocols for using the transfer method to approach environmental problems and introduces several significant conceptual and methodological advances that refine the transfer process The transfer approach to quantitative policy analysis adapts information and data from existing studies and so provides an economical way to assess potential benefits and costs for projects The book presents a detailed framework for examining the transfer of information outlines the basic steps of the method and discusses solutions to frequently encountered problems It then illustrates the method with an extensive case study of environmental externalities from electricity generation This case study provides the opportunity to discuss salient aspects of the transfer method in more detail including conceptual principles the quality of original studies empirical difficulties and estimation techniques It also demonstrates the use of state of the art techniques such as meta analysis to synthesise and transfer information from multiple studies and assesses the reliability of the transfer estimates with repeated computer simulations a technique known as Monte Carlo analysis *Environmental Policy Analysis with Limited Information* will appeal to environmental policy analysts and managers as well as environmental economists

Environmental Policy Analysis and Practice Michael R. Greenberg, 2007 List of Tables p ix Preface p xi Acknowledgments p xv Introduction A Quick Walk through a Framework of Six Environmental Policy Criteria p 1 Part I Six Policy Analysis Criteria Themes Theories Tales and Tasks 1 The Reaction of Elected Officials and Staff Criterion The Brownfields Redevelopment Policy p 13 2 The Reaction of Nongovernment Stakeholder Groups Criterion Environmental Cancer and Cancer Clusters p 44 3 Scientist Stakeholder Criterion Gasoline Additives p 70 4 Economic Criterion Costs of Environmental Management p 96 5 Ethics Criterion International Trade in Pesticides and Genetically Modified Crops p 129 6 Time and Flexibility Criterion Nuclear Power Revisited p 156 Part II Policy Analysis Tools 7 Policy Measurement and Assessment Tools p 187 8 Decision Making and Communication Tools p 224 References p 251 Index p 279 *Environmental Policy Analysis*

Jian Xie, 1996 Using the computable general equilibrium CGE approach this work develops an integrated economic and environmental model for environmental policy analysis for developing countries The model is applied to China and the policies under scrutiny include pollution emission taxes **California. Court of Appeal (2nd Appellate District). Records and Briefs** California (State)., Received document entitled APPENDIX CITED IN RESPONDENTS OPENING BRIEF

Workshop on the National Environmental Policy Act, 1976 *Final Environmental Impact Statement, Exxon Coal and Minerals Co. Zinc-copper Mine, Crandon, Wisconsin*, 1986 **Environmental Outlook**, 1986 *Environmental Policy in the European Union* Andrew Jordan, 2002 Collection of the most innovative and incisive writing on the environmental policies of the EU Essential reference and course book for environmental politics and European politics courses Emphases

how policy is a dynamic process and examines the roles of the main actors and institutions The European Union has come to dominate the way environmental policy is thought about developed and implemented throughout Europe It is also a guide and benchmark for policy elsewhere in the world This Guide brings together the best and most influential work on the full range of EU environmental policy Incorporating a range of case studies it draws out the links between levels of governance and the role of environment in other policy areas such as agriculture trade and transport The editor s introduction explores the important theoretical and empirical questions raised by the development of EU policy and the challenges of the new sustainability agenda The result is a highly useful primer and source book for all those involved or studying environmental politics and policy not just in Europe but in other regions too
