Religion in the Lands That Became America Thomas A. Tweed, 2025-05-13 A sweeping retelling of American religious history showing how religion has enhanced and hindered human flourishing from the Ice Age to the Information Age Until now the standard narrative of American religious history has begun with English settlers in Jamestown or Plymouth and remained predominantly Protestant and Atlantic Driven by his strong sense of the historical and moral shortcomings of the usual story Thomas A Tweed offers a very different narrative in this ambitious new history He begins the story much earlier 11 000 years ago at a rock shelter in present day Texas and follows Indigenous Peoples African Americans transnational migrants and people of many faiths as they transform the landscape and confront the big lifeway transitions from foraging to farming and from factories to fiber optics Setting aside the familiar narrative themes he highlights sustainability showing how religion both promoted and inhibited individual communal and environmental flourishing during three sustainability crises the medieval Cornfield Crisis which destabilized Indigenous ceremonial centers the Colonial Crisis which began with the displacement of Indigenous Peoples and the enslavement of Africans and the Industrial Crisis which brought social inequity and environmental degradation The unresolved Colonial and Industrial Crises continue to haunt the nation Tweed suggests but he recovers historical sources of hope as he retells the rich story of America s religious past

Life of the Indigenous Mind David Martínez, 2019-08-01 2019 Choice Outstanding Academic Title In *Life of the Indigenous Mind* David Martínez examines the early activism life and writings of Vine Deloria Jr 1933 2005 the most influential indigenous activist and writer of the twentieth century and one of the intellectual architects of the Red Power movement An experienced activist administrator and political analyst Deloria was motivated to activism and writing by his work as executive director of the National Congress of American Indians and he came to view discourse on tribal self determination as the most important objective for making a viable future for tribes In this work of both intellectual and

activist history Martinez assesses the early life and legacy of Deloria's Red Power Tetralogy his most powerful and polemical works *Custer Died for Your Sins* 1969 *We Talk You Listen* 1970 *God Is Red* 1973 and *Behind the Trail of Broken Treaties* 1974 Deloria's gift for combining sharp political analysis with a cutting sense of humor rattled his adversaries as much as it delighted his growing readership *Life of the Indigenous Mind* reveals how Deloria's writings addressed Indians and non-Indians alike It was in the spirit of protest that Deloria famously and infamously confronted the tenets of Christianity the policies of the Bureau of Indian Affairs and the theories of anthropology The concept of tribal self-determination that he initiated both overturned the presumptions of the dominant society including various Indian experts and asserted that tribes were entitled to the rights of independent sovereign nations in their relationship with the United States be it legally politically culturally historically or religiously

J. Carney Adrian Hermann Paul Kollman Kenneth Mills Esther Mombo Mrinalini Sebastian Christopher Vecsey Haruko Nawata Ward and Yanna Yannakakis

Whiteness and Morality J. Harvey, 2007-06-14 This book considers how white U.S. Americans may participate in racial justice making and shows how white identities embody problematic moral realities arguing that reparations for people of African descent and sovereignty for Native peoples are critical for racial justice and transformation of what it means to be white in the United States

Native American Religion Joel W. Martin, 2001-02-22 Native Americans practice some of America's most spiritually profound historically resilient and ethically demanding religions Joel Martin draws his narrative from folk stories rituals and even landscapes to trace the development of Native American religion from ancient burial mounds through interactions with European conquerors and missionaries and on to the modern-day rebirth of ancient rites and beliefs The book depicts the major cornerstones of American Indian history and religion the vast movements for pan-Indian renewal the formation of the Native American Church in 1919 the passage of the Native American Graves and Repatriation Act of 1990 and key political actions involving sacred sites in the 1980s and 90s Martin explores the close links

between religion and Native American culture and history. Legendary chiefs like Osceola and Tecumseh led their tribes in resistance movements against the European invaders inspired by prophets like the Shawnee Tenskwatawa and the Mohawk Coocoochee. Catharine Brown herself a convert founded a school for Cherokee women and converted dozens of her people to Christianity. Their stories along with those of dozens of other men and women from noble warriors to celebrated authors are masterfully woven into this vivid wide ranging survey of Native American history and religion.

United States Foreign Policy and the Prospects for Peace Education Carl Mirra, 2008-03-31. In light of the United States age of terrorism and the controversial involvement in the war in Iraq U S policies toward diplomatic peace education are coming under increasing scrutiny. This book evaluates the prospects for effective U S peace education in the context of post 1945 U S foreign policy. The work first documents the disparity between U S pronouncements about protecting human rights and the country's systematic erosion of those rights in the international arena. Second it evaluates the challenges that the war on terrorism poses for peace education and explores the importance of international treaties in upholding security. A final section explores new ways of thinking and relating that are ultimately necessary for the realization of nonviolent peacekeeping efforts. Designed as a resource text for U S educators the text offers concrete proposals for addressing contentious foreign policy issues in the classroom and includes an appendix of primary documents and sample questions for easy use.

Pilgrims in Their Own Land Martin E. Marty, 1984 American Indian Culture and Research Journal ,1999 Foreign Missions Year Book of North America Foreign Missions Conference of North America. Committee of Reference and Counsel, 1920 **A Catalogue of Books Belonging to the Lower Hall of the Central Department** Boston Public Library, 1873 **A Second Supplement to the Catalogue of Books in the Signet Library. 1882-1887** Signet Library (Great Britain), 1891 **Year Book of the United Lutheran Church in America** ,1919 A Catalog of Books Belonging to the Lower Hall of the Central Department, in the Classes of History, Biography, and Travel Boston Public Library, 1873 The Cumulative Book Index ,1930 **The Journal of Speculative Philosophy** ,2004 American Civil Religion Peter Gardella, 2013-11-18. The United States has never had an officially established national church. Since the time of the first British colonists it has instead developed a strong civil religion that melds God and nation. In a deft exploration of American civil religious symbols from the Liberty Bell to the Vietnam Memorial from Mount Rushmore to Disney World Peter Gardella explains how the places, objects and words that Americans hold sacred came into being and how Americans' feelings about them have changed over time. In addition to examining revered historical sites and structures he analyzes such sacred texts as the Declaration of Independence, the Constitution, the Gettysburg Address, the Kennedy Inaugural and the speeches of Martin Luther King and shows how five patriotic songs: The Star Spangled Banner, The Battle Hymn of the Republic, America the Beautiful, God Bless America and This Land Is Your Land have been elevated into hymns. Arguing that certain values: personal freedom, political democracy, world peace and cultural tolerance have held American civil religion together, Gardella chronicles the numerous

forms those values have taken from Jamestown and Plymouth to the September 11 2001 Memorial in New York
