behavior at both business and personal levels With the use of modern technology such as the printing press and the highly mechanized harvesting of wood paper has become a cheap commodity everywhere This has led to a high level of consumption and waste With the rise in environmental awareness on the pollution of the Eco system by the effluent of pulp and paper it became imperative to run a clearer analysis of its environmental impact Environmental Management in the Pulp and Paper Industry ,1996 This technical report examines the environmental issues facing the pulp paper industry shows how these issues can be addressed It discusses the production process the origins of pollution other impacts on the industry It also recommends procedures for reducing these impacts **Pulp Fact** Nigel Dudley,Sue Stolton,Jean Paul Jeanrenaud,1996
