Getting Into Childcare:

Getting Me Cheap Amanda Freeman, Lisa Dodson, 2022-11-29 Two groundbreaking sociologists explore the way the American dream is built on the backs of working poor women Many Americans take comfort and convenience for granted We eat at nice restaurants order groceries online and hire nannies to care for kids Getting Me Cheap is a riveting portrait of the lives of the low wage workers primarily women who make this lifestyle possible Sociologists Lisa Dodson and Amanda Freeman follow women in the food health care home care and other low wage industries as they struggle to balance mothering with bad jobs and without public aid While these women tend to the needs of well off families their own children frequently step into premature adult roles providing care for siblings and aging family members Based on years of in depth field work and hundreds of eye opening interviews Getting Me Cheap explores how America traps millions of women and their children into lives of stunted opportunity and poverty in service of giving others of us the lives we seek Destined to rank with works like Evicted and Nickle and Dimed for its revelatory glimpse into how our society functions behind the scenes Getting Me Cheap also offers a way forward with both policy solutions and a keen moral vision for organizing women across class lines

The best start in life? Great Britain: Parliament: House of Commons: Work and Pensions Committee, 2008-03-10 The Government has set itself the challenging target of halving the number of children living in poverty by 2010 11 and eradicating child poverty by 2020 With 2010 fast approaching Ministers are still committed to the targets and the Committee wanted to ascertain whether DWP has the right measures in place to meet its objectives Significant progress has been made but the target remains challenging there are still 2 8 million children living in poverty and the most recent data shows a slight increase in this number The Committee is convinced of the damaging effect of poverty on a child s self esteem and expectations and also its effects in contributing to social exclusion Children growing up in poverty are also more likely to have poorer health and poorer educational outcomes There are groups of children who have a much higher risk of growing up in poverty for example if they or a parent are disabled and there are higher poverty rates amongst Pakistani Bangladeshi and black children Getting parents into sustainable work should be the focus of the strategy to lift them and their children out of poverty but there are concerns that the Jobseekers Allowance regime is not sufficiently flexible to reflect the complexity of lone parents lives To eradicate child poverty by 2020 the Government needs a long term strategy on benefit income for those who are unable to work If benefits are uprated in line with inflation the gap between the incomes of those in work and those on benefits will only get wider as benefits will not keep pace with earnings As poverty is measured as a percentage of median earnings the implications for the 2020 target in particular are serious The Administration of Tax Credits Great Britain: Parliament: House of Commons: Treasury Committee, 2006-06-06 administration of tax Credits Sixth report of session 2005 06 Vol 2 Oral and written Evidence *The Unofficial Guide to Childcare* Ann Douglas, 1998-10-09 Childcare has always been a concern for parents There are more than 20 million U S households with
