, Heterogender Homosexuality in Honduras Manuel Fernández-Alemany, Stephen O. Murray, 2002 This ethnography of the sexual culture of males who have sex with males in the lower class part of San Pedro Sula Honduras shows that the analytic distinction between gender and sexuality is inoperative for Honduran men It provides original research and innovative analysis of Latin American sexual culture and the gendering of Latino sexualities and based on the views of lower class Hondurans challenges the heralding of globalization as liberation The collaboration between a Latin American anthropologist and an American comparativist sociologist is particularly novel and noteworthy for including the perspectives on homosexuality of the young men hombres who penetrate those classified as homosexuals and makes important contributions to Latin American studies gender studies cultural studies and to understanding sexual cultures La Esencia del Amor Luis A.
