Nicholas Roerich. East & West Kenneth Archer,2021-06-30 Nicholas Roerich with his huge and versatile talent is one of the most interesting creative minds of the early 20th century He was born in Saint Petersburg in 1874 and died in Kulu Valley India in 1947 After studying law and attending the Academy of Art Nicholas Roerich developed a passionate interest in archaeology a contribution that was acknowledged when he became a lecturer at the Russian Archaeological Society in 1900 His extensive travels in Europe Russia Asia and especially India were a source of inspiration wholly original and unique for more than 7000 paintings Roerich was also the author of the Pact which bears his name and which was designed to protect the cultural heritage in time of war Moreover he wrote numerous books and collections of poetry *Altai--Himalaya* Nicholas Roerich,1929 Heart of Asia Nicholas Roerich,1930 Eden in the Altai Geoffrey Ashe,2018-12-11 Reveals how humanity's first advanced culture originated in the Altai Baikal region of southern Siberia Explores how this prehistoric culture is the source of the pervasive mythic symbolism of the number 7 found in ancient cosmologies and myths around the world Traces the Altaic influence on the Rishis of India the creation of the Vedas and the origin of the sacred legend of Mount Meru Explains how the Hellenic cults of both Apollo and Artemis originated in southern Siberia as well as the pervasive bear symbolism found throughout the ancient world Myths of a Golden Age a paradise at the beginning of human existence are nearly universal in all cultures But where was this Eden located Refuting the traditional assumption that the cultures of the Middle East and Mycenae filtered northward into Europe and North Asia noted historian Geoffrey Ashe instead identifies the northern Altai mountain range and Lake Baikal region of southern Siberia as the true cultural home of humanity and the source of the widespread myths of a prehistoric Golden Age With evidence dating back as far as 24 000 BC Ashe shows how the culture of prehistoric southern Siberia was matrifocal Goddess worshipping and heavily shamanic and served as the progenitor of advanced ancient culture in the Western world the missing link that later influenced Indian Middle Eastern Native American and European society culture and religion He reveals how ancient Altaic culture was the source of the pervasive mythic symbolism of the number 7 found in cosmologies and mythological traditions around the world as well as reverence for the seven stars of Ursa Major the Big Dipper and the idea of a sacred mountain to the North He traces the transmission of these cosmological beliefs into Babylon and ancient Greece by migrating tribes including those that crossed the now vanished land bridge to the New World Ashe reveals how this transmission of beliefs had a profound influence on the seven note musical scale the seven astrological planets and the seven vowels of the Greek alphabet as well as the

development of seven as a sacred number in Judaism He shows how the ancient Altai Baikal culture influenced the Rishis of India the creation of the Vedas and the sacred legend of Mount Meru He also reveals how the Hellenic cults of both Apollo and Artemis originated in southern Siberia as well as the sacred bear symbolism found throughout the ancient world Offering proof that advanced cultures existed in Europe before the immigration of Eastern peoples Ashe shows that early societies did not look into the future for perfection but to the past to the Golden Age of peace in the sacred northern mountains
