**Politically Red** Eduardo Cadava, Sara Nadal-Melsio, 2023-12-05 How reading and writing are collective acts of political pedagogy and why the struggle for change must begin at the level of the sentence Reading is class struggle writes Bertolt Brecht *Politically Red* contextualizes contemporary demands for social and racial justice by exploring the shifting relations between politics and literacy Through a series of creative readings of Karl Marx Rosa Luxemburg Walter Benjamin W E B Du Bois Fredric Jameson and others it casts light on history as an accumulation of violence and in doing so suggests that it can become a crucial resource for confronting the present insurgence of inequality racism and fascism Reading between the lines as it were and even behind them Cadava and Nadal Melsi engage in an inventive mode of activist writing to argue that reading and writing are never solitary tasks but always collaborative and collective and able to revitalize our shared political imagination Drawing on what they call a red common wealth an archive of vast resources for doing political work and in particular anti racist work they demonstrate that sentences as dynamic repositories of social relations are historical and political events

[Not Just Bad Kids](#) Akeem Nassor Marsh, Lara Jo Cox, 2022-01-25 *Not Just Bad Kids* The Adversity and Disruptive Behavior Link explores the theory that all behavior makes sense in context If you understand a person s frame of reference their background history and experience you can imagine what might be driving their behavior The book describes the social cultural and environmental factors that shape the lives of many youths including early

childhood attachment which sets the foundation for how they interact with authority figures The book also delves into an explanation of conduct disorder which is characterized by persistent repetitive behaviors that violate the basic rights of other human beings and break rules Studies have shown that conduct disorder affects 1 4% of adolescents in the United States and oppositional defiant disorder is estimated to develop in approximately 10 2% of children The presence of DBD is also known to be more prevalent in boys than it is in girls As there is a growing need to understand why children and adolescent exhibit signs of hostility defiance and isolation this book is an ideal resource for this timely topic Encompasses both ODD and conduct disorder Introduces readers to the social cultural and environmental factors that play a crucial part in disruptive behavior Demonstrates the interrelationship of attachment problems chronic trauma and disruptive behavior Discusses current best practices for intervention and treatment in youth with disruptive behaviors Provides casework examples of patients with disruptive behavior disorder

**Wounds that Will Not Heal** Russell Nieli,2012 Racial preference policies first came on the national scene as a response to black poverty and alienation in America as dramatically revealed in the destructive urban riots of the late 1960s From the start however preference policies were controversial and were greeted by many including many who had fought the good fight against segregation and Jim Crow to further a color blind justice with a sense of outrage and deep betrayal In the more than forty years that preference policies have been with us little has changed in terms of public opinion as polls indicate that a majority of Americans continue to oppose such policies often with great intensity In *Wounds That Will Not Heal* political theorist Russell K Nieli surveys some of the more important social science research on racial preference policies over the past two decades much of which he shows undermines the central claims of preference policy supporters The mere fact that preference policies have to be referred to through an elaborate system of euphemisms and code words affirmative action diversity goals and timetables race sensitive admissions tells us something Nieli argues about their widespread unpopularity their tendency to reinforce negative stereotypes about their intended beneficiaries and their incompatibility with core principles of American justice Nieli concludes with an impassioned plea to refocus our public attention on the truly disadvantaged African American population in our nation s urban centers the people for whom affirmative action policies were initially instituted but whose interests Nieli charges were soon forgotten as the fruits of the policies were hijacked by members of the black and Hispanic middle class Few will be able to read this book without at least questioning the wisdom of our current race based preference regime which Nieli analyses with a penetrating gaze and an eye for cant that will leave few unmoved
