General Intelligence Reasoning CIVIL Electrical Mechanical Solved Papers Cheap and Tasteful Dwellings Jan
Jennings,2005 In 1879 Carpentry and Building magazine launched its first house design competition for a cheap house Forty
two competitions eighty six winning designs and a slew of near winners and losers resulted in a body of work that offers an
entire history of architectural culture The competitions represented a vital period of transition in delineating roles and
responsibilities of architectural services and building trades The contests helped to define the training education and values
of practical architects and to solidify house planning ideals The lives and work of ordinary architects who competed in
Carpentry and Building contests offer a reinterpretation of architectural professionalization in this time period Cheap and
Tasteful Dwellings thoroughly explores the results of these competitions conducted over a thirty year period from 1879 to
1909 The book outlines the philosophy behind and procedures developed for running the competitions looks at
characteristics of the eighty six winners of the competitions examines the nature of architectural practices during the period
analyzes the winning competition designs and provides biographical details of competition winners and losers A landmark
book in architectural history Cheap and Tasteful Dwellings makes a compelling case for the theory of convenient
arrangement its history its role its principles its relationship to contemporary interior design education and its meaning to
American architecture More importantly the book explains the impact of Carpentry and Building s contests in furthering the
tenets of convenient arrangement for house design By using extensive material from the magazine Jennings leaves little
doubt as to how important this overlooked story is to the history of American architecture as a whole *Examination Papers*
