First Men On The Moon:

The First Men On The Moon H. G. Wells, 2021-01-01 Famous writer H G Wells romantic science fictional novel *The First Men in the Moon* was first published in the year 1901 It tells the story of a journey to the moon undertaken by the two protagonists a businessman narrator Mr Bedford and an eccentric scientist Mr Cavor Bedford and Cavor discover that the moon is inhabited by a sophisticated extraterrestrial civilization of insect like creatures they call Selenites [The First Men In The Moon](#) H. Wells, 2015 Adapted by Ronald Ritter Susan Evermore from the original work by H G Wells On the 20th July 1969 Apollo 11 the first manned mission to the moon landed on the its surface Neil Armstrong officially became the first man to walk on the moon With the famous words That s one small step for man one giant leap for mankind Armstrong wrote himself into the official history of space exploration What he saw on the surface of the moon was a barren rocky landscape devoid of any oxygen or water and without any ability to support human life in any shape or form At the time it was a political coup for the USA to be the first to make the landing nothing else regardless of its source was going to change that story until now The real story can now be told because what Neil Armstrong found on the moon proved that the British had landed there before them in 1901 sixty eight years prior to the official version While searching near one of the rocky outcrops out of view of any

camera Armstrong made the almost incredulous discovery of a small British flag still standing where it had been planted into the hard lunar surface This is the fictional story of a moon able to support life and its rapid demise from the intrusion of two British cosmonauts in 1901 This is their story and your imagination **The First Men in the Moon** H Wells,2018-07-20 Of the enormous body of work produced by H G Wells more than a book a year over the course of half a century the early science fiction novels that first made him famous have proved to be the most enduring and have earned him the sobriquet the father of modern science fiction In the 1901 classic *The First Men in the Moon* Wells reveals not only a fertile imagination at ease with biological and astronomical phenomena but also a passionate concern for man and society His first men in the moon prove to be the eccentric Mr Cavor and his traveling companion Mr Bedford who navigate a gravity defying sphere through space before executing a rough landing on the moon As castaways from earth they practice lunar locomotion get lost in the wilds of a moon jungle and confront intelligent life forms living in lunar caverns Through the adventures of these two earthlings the author is able to look at mankind from a distance and in his words burlesque the effects of specialization The result is a delightful tale filled with adventure romance and fantasy that is still capable of stirring the imagination of readers in the 21st century Wells s science fiction novels achieve a near poetry which makes them part of the popular mythology of their age the best of his work has a vitality a verve an imaginative compulsion unsurpassed by any of his contemporaries N C Nicholson author of *H G Wells Popular Fiction and Brain Science in the Late Nineteenth Century* Anne Stiles,2011-12-22 In the 1860s and 1870s leading neurologists used animal experimentation to establish that discrete sections of the brain regulate specific mental and physical functions These discoveries had immediate medical benefits David Ferrier s detailed cortical maps for example saved lives by helping surgeons locate brain tumors and haemorrhages without first opening up the skull These experiments both incited controversy and stimulated creative thought because they challenged the possibility of an extra corporeal soul This book examines the cultural impact of neurological experiments on late Victorian Gothic romances by Robert Louis Stevenson Bram Stoker H G Wells and others Novels like *Dracula* and *Dr Jekyll and Mr Hyde* expressed the deep seated fears and visionary possibilities suggested by cerebral localization research and offered a corrective to the linearity and objectivity of late Victorian neurology **The First Men in the Moon** H.G. Wells,2021-08-04 *The First Men in the Moon* H G Wells As I sit down to write here amidst the shadows of vine leaves under the blue sky of southern Italy it comes to me with a certain quality of astonishment that my participation in these amazing adventures of Mr Cavor was after all the outcome of the purest accident It might have been any one I fell into these things at a time when I thought myself removed from the slightest possibility of disturbing experiences I had gone to Lympe because I had imagined it the most uneventful place in the world Here at any rate said I I shall find peace and a chance to work And this book is the sequel So utterly at variance is destiny with all the little plans of men I may perhaps mention here that very recently I had come an ugly cropper in certain business enterprises Sitting now surrounded by all the circumstances of
