Ether Cosmic:

Cosmic Evolution John Elof Boodin,1925 *Speculations Concerning the Ether and Its Functions* John Benjamin Penniston,1928 Radionics Interface With The Ether-Fields David V Tansley,2011-08-31 This book explores the interface that exists between the human energy field and the Universal Field of energy in which we live It shows how these fields can be utilised for distant diagnosis and treatment It also illustrates that the surest and most effective way to ameliorate a defect in any biological system is to modulate the interacting and interdependent energy fields by way of the chakras The same energy fields can be used to take photographs of distant objects particularly the energy structures of living human tissues and pathological states existing in them The vibratory patterns and potencies of homoeopathic remedies can also be drawn from the ether fields and impregnated into neutral substances such as water or alcohol solutions which have a capacity for memory Radionics is a healing art that links the physical world with the unseen worlds lying beyond the physical senses Diagnostically it probes to the levels of causation of disease therapeutically it is gentle and non invasive **From the Mysteries** Hermann Beckh,2020-06-03 In the early part of the last century Professor Hermann Beckh began a search to discover the truth about the Mystery wisdom of antiquity As a recognized authority on Buddhist texts he knew that complete knowledge of such Mysteries was not to be found within the limitations of waking consciousness sense perception and logic Beckh was already aware that Gautama Buddha had indicated the stages of higher knowledge Furthermore his studies of Rudolf Steiner s anthroposophical teachings revealed that such knowledge could be experienced directly given disciplined meditation Clairvoyant cognition included the conscious penetration of sleep consciousness the dream state and an experience of pre natal consciousness Both the Mysteries and Rudolf Steiner s major books he concluded were founded on the same perceptions Beckh a worldwide expert on Tibetan Sanskrit Pali and Avestan texts quickly became disenchanted with Madame Blavatsky s Theosophy as it displayed little precise academic knowledge of primary records At the same time university departments showed scant trace of understanding the texts they analysed through philology and sociology Thus based on comprehensive studies and personal experience he resolved to present his own perceptions and vision to the public The results are to be found in this invaluable book bringing together for the first time in English three groundbreaking publications *Our Origin in the Light* Genesis 1 9 1924 *Zarathustra* 1927 and *From the World of the Mysteries* 1927 as well as five of Beckh s articles from contemporary periodicals *Finding Harmony* Matthew Del Nevo,2018-01-23 This is a self help book with soul Soul is not something we have soul has to do with what we are with inner quality not outward expression or success or achievement Soul is not about getting happiness but about dwelling in melancholic enjoyment The way of soul is a middle way between sensualism or materialism consumerism on one hand and effete spirituality and religiosity or abstract modes of reflection including philosophizing and theologizing on the other We see soul alive in art and hear it in good music and we sing along with it in our favorite songs Soul is not spirit or an idea it is sensibility Finding harmony has to do with

developing sensibility which we need to be able to distinguish from being religious having ideas and beliefs purpose driven living self help techniques and so on Soul is deadened by techniques tech speak and method because soul is tied to creativity and inspiration and the power of now With this book I hope to open my readers to soul and soulfulness as the primary business of life
