Galactic Aliens Alan G. Frank, 1980-04-01      Galactic Aliens Alan Frank, 1979      *Silly Alien Time Travel Stories for really Big Kids* Denis Hayes, 2014-04 Do other superior beings really exist outside of Earth Of course they do and in this book they are very active all over the Universe but not always in a serious way The Sramians Sunevians and Otulpians are from three identical planets in the same orbit around the same sun in a very old galaxy on the far side of the universe that has no sides They come from a Galaxy so old that its name has been forgotten and so is just called The Oldest Galaxy The Creator has made them the Caretakers Custodians and the Commissioners of the Universe as the Creator is very busy creating This third book in the series centres around the Human hero who saved the Universe and his attempts to get back to where and who he was when he originally left Earth He finds that two or three years in Space Time is ten thousand years in Earth Time so he sneaks a peak into the future and meets future human beings He gets a lot of shocks and surprises not all good before the Aliens find a way to return him to his origins He discovers that the future Humans have read his books that he hasn't written yet so that is the reason why the author is writing the books now so that future Humans can read about themselves from the past      **The Milky Galaxy** Barbara G Louise, 2021-12-13 The Milky nurturing Galaxy is a combination of two related novellas set in the same small unregarded corner of the multiverse In the first novella in the 24th century the Earth is ruined Bio diversity is gone What is left is foul air poisoned soil filthy water and a greatly reduced population of Humans struggling to survive in the dystopian environment The wondrous beauty of a living globe more than four billion years old perfectly suited to support millions of diverse species is no more Only the Rich live comfortably in geodesic domes five miles high which selfishly preserve some of the former glorious wonder the clean air water and healthy food of the now collapsing Earthly biosphere In the fragmented slums between the Domes descendents of the former Working Class whose livelihoods were usurped by robots mid 21st century cling to a precarious secret existence in old buildings sealed against the raw polluted unfiltered air and water of ruined Earth Living in peace with the ultra privileged Dome dwellers except as slaves whose lives would be worth nothing is clearly impossible Large green ameboid Aliens come to Earth and take away members of the former Working Class to settle them on healthy planets elsewhere in the Galaxy The Aliens accidentally leave an Alien child behind Zee the ameboid Aliens have only one gender struggles to survive outside the Domes and find a way to Reproduce to save his memories for the future of his species In the second novella a wastrel young man belonging to a Rich Dome family is sent against his will by his authoritarian father out into space to find a suitable un ruined planet where the Rich Families of Earth can transfer their civilization their food animals their enslaved women and their capitalist economy Past the worm hole in the alpha Centauri star system the young man finds a thriving Anarkhist society of Human beings living with green ameboid aliens and others inhabiting a star system with three suns To his surprise he falls in love with a free Human female and yet he still intends to conquer the planet and bring to it the blessings of Capitalism because it will
