**The Future Knowledge Compendium** Peter Ellyard, 2023-03-03 THRIVING IN THE 21ST CENTURY Humans have a unique capability to both understand their situation in the world and to envision and act to realise their aspirations in the emerging world And most of us would welcome knowing how we can become ever more skilful at both understanding and shaping the future of our emerging world so that we can thrive in it The 21st century is very different from the 20th century Globalisation the greatest economic prosperity uplifting machine humanity has ever invented and mass education are combining to sweep humanity into an emerging interdependent global village It is creating a global educated middle class that will number 5 billion in 2030 In this emerging world a world where our future prosperity will be increasingly based on metaphysical wealth on what we know 20th century nation first competitive win lose mindsets and agendas can no longer work These now yesteryear mindsets will instead undermine our best endeavours including making our future ever more climate and pandemic safe Humanity is now beginning to learn that it now has no option but to adopt planet first collaborative win win values and mindsets if it wishes to shape our emerging global village so that it can become liveable for all ever more prosperous harmonious inclusive sustainable healthy and secure Meeting these challenges successfully will require that humanity innovates for itself a new future knowledge curriculum so that it can economically thrive in a sustainable and humane manner Peter Ellyard has asked the question what would be the contents of such a curriculum In The Future Knowledge Compendium A Curriculum for Thriving in the 21st Century he has sought to answer this question

**Trust and Power** Niklas Luhmann, 2017-10-16 In this important book Niklas Luhmann uses his powers as an analyst of the social system to examine two of the most important concepts which hold that system together and allow it to evolve trust and power He criticises those theoretical accounts whose roots lie in what he refers to as ideologies accounts which use implicit beliefs in particular conceptions of human nature to explain and predict social action in a one dimensional way Theories of rational choice and moralistic explanations are taken to task as are the theories of both Marx and Habermas Luhmann s unique scientific sociology underpins every page and enables him to highlight the potential shortcomings of these narrative approaches Underlying this approach is the idea that ideologically based social theory whether critical or conservative is unable to do justice to the complexities existing within the parameters of social systems individuals and the interactions between them He aims to show instead how only a painstaking systems analysis can capture these intricacies Although written over 40 years ago Luhmann s complex vision of the operations of trust and power provides a wealth of insights of considerable value to scholars and students grappling with contemporary social and economic problems The editors introduction to this new edition and the significant revisions they have made to the translation will help to reveal the richness and clarity of this vision and its relevance to the ways that trust and power operate in today s society **The Coming of God** Jürgen Moltmann, Margaret Kohl, 2004-07-27 Winner of Grawemeyer Award In this remarkable and timely

work in many ways the culmination of his systematic theology world renowned theologian Jurgen Moltmann stands Christian eschatology on its head Moltmann rejects the traditional approach which focuses on the End an apocalyptic finale as a kind of Christian search for the final solution He centers instead on hope and God s promise of new creation for all things Christian eschatology he says is the remembered hope of the raising of the crucified Christ so it talks about beginning afresh in the deadly end Yet Moltmann s novel framework deeply informed by Jewish and messianic thought also fosters rich and creative insights into the perennially nettling questions of eschatology Are there eternal life and personal identity after death How is one to think of heaven hell and purgatory What are the historical and cosmological dimensions of Christian hope What are its social and political implications In a heartbreakingly fragile and fragment world Moltmann s comprehensive eschatology surveys the Christian vista bravely envisioning our horizons of expectation for personal social even cosmic transformation in God

*Law as a Social System* Niklas Luhmann,2004 However unlike conventional legal theory this volume seeks to provide an answer in terms of a general social theory a methodology that answers this question in a manner applicable not only to law but also to all the other complex and highly differentiated systems within modern society such as politics the economy religion the media and education This truly sociological approach offers profound insights into the relationships between law and all of these other social systems

**Future Present** Cathy Ross,Jonny Baker,Steve Collins (Architect),2018 This is a zine for dreamers of other possible worlds other possible futures for our planet society business church or whatever other area of life you care to choose Each contributor was invited to imagine a different future and then ask so what for how we act in the present now The first task is to imagine the future and then the second task is to act in the present on the basis of that imagined future to make the future present to embody a better world now Publisher s website

[The Temporality of Determinacy](#) Conor Husbands,2022-06-16 Metaphysics has often held that laws of nature if legitimate must be time independent Yet mounting evidence from the foundations of science suggests that this constraint may be obsolete This book provides arguments against this atemporality conjecture which it locates both in metaphysics and in the philosophy of science drawing on developments in a range of fields from the foundations of physics to the philosophy of finance It then seeks to excavate an alternative philosophical lineage which reconciles time dependent laws with determinism converging in the thought of Immanuel Kant

**Augustine and Philosophy** Phillip Cary,John Doody,Kim Paffenroth,2012-07-10 Augustine of Hippo was a philosopher

as well as theologian bishop and saint He aimed to practice philosophy not simply as an academic discipline but as a love for divine wisdom pervading everything in his life and work To inquire into Augustine and philosophy is thus to get to the heart of his concerns as a Christian writer and uncover some of the reasons for his vast influence on Western thought This volume containing essays by leading Augustine scholars includes a variety of inquiries into Augustine s philosophy in theory and practice as well as his relation to philosophers before and after him It opens up a variety of perspectives into the heart of Augustine s thought He frequently reminds his readers philosophy means love of wisdom and in that sense he expects that every worthy impulse in human life will have something philosophical about it something directed toward the attainment of wisdom In Augustine s own writing we find this expectation put into practice in a stunning variety of ways as keys themes of Western philosophy and intricate forms of philosophical argument turn up everywhere The collection of essays in this book examines just a few aspects of the relation of Augustine and philosophy both in Augustine s own practice as a philosopher and in his interaction with others The result is not one picture of the relation of Augustine and philosophy but many as the authors of these essays ask many different questions about Augustine and his influence and bring a large diversity of interests and expertise to their task Thus the collection shows that Augustine s philosophy remains an influence and a provocation in a wide variety of settings today
