Good And Evil In Myth And Legend:

Good and Evil Anthony S. Mercatante, 1978 **Good and Evil in Myth & Legend** Anthony S. Mercatante, 1978 What in the human scheme of things is the origin and meaning of evil and of its worthy opponent good These questions have intrigued man's imagination from ancient times to the present Now the questions are explored in this book through world mythology and folklore Here are the myths folklores legends and fables that have been passed down from age to age to account for the mysteries of good and evil woven into a brilliant tapestry that will hold the reader spellbound In nineteen chapters covering the spectrum of mythology and folklore from ancient Egypt to present day Voodoo the gods goddesses demons and angels heroes and heroines appear in all their splendor We meet Ishtar the Babylonian Assyrian goddess dispenser of both good and evil and discover her sexual passion for Gilgamesh the hero king who rejects her love Ahriman Mazda the Persian god of light and goodness and his evil brother Ahriman battling for control of the world Zeus the Greek sky god and Prometheus the Titan god who dared oppose his despotic rule Loki the Nordic trickster god whose amoral acts bring about the destruction of the world Amaterasu Omikami the Japanese sun goddess and her brother Susano o who embody the continual battle between the forces of light and darkness the Devil in various guises Jewish Christian Islamic and Buddhist Here then is a compelling study of a fascinating subject *Teutonic Myth and Legend* Donald Alexander Mackenzie, 1912

The Golden Age of Myth & Legend Thomas Bulfinch, 1919 *The Postmodern Mythology of Michel Tournier* Melissa Panek, 2012-03-15 Michel Tournier defines the supreme mission of a writer to be the creation of a mythology which allows for interaction with his readers who seem to be losing their critical faculties in our contemporary postmodern world dominated by consumption and dizzying technological advances Our contemporary society has changed due to the end of the modern era with its reigning ideologies Collapsing after the atrocities of the Second World War Modernity and the artistic and literary reactions referred to as modernism have likewise been transformed Myth continues to represent the collectivity of human existence yet in the short stories and novels of Michel Tournier myth represents the collapse of the all encompassing ideologies inherent to the Modern era The grand narratives of Modernity such as Christianity and Man's reason have been deconstructed in the postmodern era The mythology of Michel Tournier expresses these trends towards the dissolution of Modernity and creates individual mini narratives which emphasize the particularity of individual existence Tournier takes established mythical models rooted in Christianity fables and legends of Western Civilization and re contextualizes them Through a semiotic reworking of core binary pairs of a myth Tournier creates a third order level of representation which modifies the mythical model The works of *le Roi des Aulnes* Gilles et Jeanne and *Vendredi* are illustrious of this third order level of signification According to Ferdinand de Saussure Roland Barthes and Claude Lévi Strauss the structural make up of myth transforms established meanings according to the dominant cultural code Barthes semiological study of myth reveals the levels of representation through which myth creates meaning Myth builds upon the denotative first order level of

language and through a connotative process creates a second order level This connotative process does not end on this second order for in the writings of Tournier this semiological process is continued to a third order which re contextualizes the myth again Tournier adapts myth to the unique traits of the postmodern era including deconstruction and playfulness by allowing the reader to provide the context of the story As such we the reader take the place as author of our own individual mythology
