God Is God:

Who Is God? United Church of God, 2010-10-20 How is God one Is God a trinity Who was Jesus of Nazareth Was He a mere man or much more What was the significance of His death and resurrection In this booklet you ll learn more about the nature of God and Jesus Christ and our future destiny with Them as revealed in the Bible Inside this booklet The Grandeur of Almighty God The Personal Nature of God A Family Relationship The Family of God How Is God One The LORD Our God the LORD Is One Who Was Jesus Jesus Was Sent by the Father A Mystery Solved The Identity of Melchizedek The Plurality of God Jesus was a Jew Understanding God Through Christ What Does Christ s Resurrection Teach Us Is God a Trinity What About Matthew 28 19 The Holy Spirit is Not a Person Understanding the Image of God Partaking of the Divine Nature Jesus Christ Our Merciful High Priest God s Nature and Character **God Is . . .** Wesley J. Wildman, 2019-02-27 Your God is too small way too small What if God is not a human like personal being but the God Beyond God of the Christian mystical traditions What if God is the ultimate reality beyond all beings including beyond all divine beings indeed beyond all Being It s a mind bending idea Speaking of God as a human like personal being is much easier but people who care about the deepest mystical understandings of God within our traditions need to make the effort to speak about the God Beyond God despite the difficulties This book makes the attempt to speak of the God Beyond God in the language of the sermon using metaphor and potent imagery tuned to the existential intensities of human life The God Beyond God is closer to us than our jugular veins vividly present in every moment of our lives These sermons are practical and moving and they also resonate with the most rigorous theological understandings of ultimate reality Their deconstruction of our convenient fantasies about a divine being make these sermons emotionally intense and perhaps not suitable for beginners in the journey of faith But veteran believers can breathe deeply in the air of these meditations relaxing into the bliss of engaging ultimate reality without delusions without deflections and without controlling the object of our worship **Is There a God?** Richard Swinburne, 1996-02-01 Is There a God offers a powerful response to modern doubts about the existence of God It may seem today that the answers to all fundamental questions lie in the province of science and that the scientific advances of the twentieth century leave little room for God Cosmologists have rolled back their theories to the moment of the Big Bang the discovery of DNA reveals the key to life the theory of evolution explains the development of life and with each new discovery or development it seems that we are closer to a complete understanding of how things are For many people this gives strength to the belief that God is not needed to explain the universe that religious belief is not based on reason and that the existence of God is intellectually a lost cause Richard Swinburne one of the most distinguished philosophers of religion of our day argues that on the contrary science provides good grounds for belief in God Why is there a universe at all Why is there any life on Earth How is it that discoverable scientific laws operate in the universe Professor Swinburne uses the methods of scientific reasoning to argue that the best answers to these questions are given by the existence of God The picture of the universe that science gives us is

completed by God **Does God Exist?** Hans Küng,1980 Does God exist The question implies another Who is God This book is meant to give an answer to both questions and to give reasons for this answer Does God exist Yes or no Many are at a loss between belief and unbelief they are undecided skeptical They are doubtful about their belief but they are also doubtful about their doubting There are still others who are proud of their doubting Yet there remains a longing for certainty Certainty Whether Christians or Jews believers in God or atheists the discussion today runs right across old denominations and new ideologies but the longing for certainty is unquenched Does God exist We are putting all our cards on the table here The answer will be Yes God exists As human beings in the twentieth century we certainly can reasonably believe in God even more so in the Christian God and perhaps even more easily today than a few decades or centuries ago For after so many crises it is surprising how much has been clarified and how many difficulties in regard to belief in God have melted into the Light that no darkness has overcome **God Is All There Is and the Devil Does Not Exist** Muzire Mbuende,2016-06-03 God Is All There Is and The Devil Does Not Exist seeks to bring about awareness and remind us of Who We Really Are for God is All There Is and there is No thing else There is only One Consciousness that has individuated It self and thusly there is no Devil in absolute form as is taught and projected by many All That Is existed in a state of being without the means to express Its being in a state of being God is No thing unto Himself Out of this conceptual knowing God All That Is longed to express explore and experience It self for what It knows It self to be And so the No Thing created Some Thing Some Form all of creation as a means or device s through which It can express explore and experience It self fully and abundantly We live in a world driven by fear scarcity competition chaos pain struggle confusion and discord It is my firm conviction that all these factors have been born and taken root because we have forgotten Who We Really Are God Is All There Is and The Devil Does Not Exist is directed to all the men and women around the globe who are entangled in shackles of fear constructed by mythical beliefs and teachings about God and the mock Devil which have been served to us for eons The message I bring seeks to liberate and unchain us from these restraints So that we can live freely and express explore and experience That Which Is within more fully and abundantly "It" Is God Lois B. Mayette,2016-08-29 It Is God is about changing the way we culturally see God and ourselves Everything is energy or it is nothing was said by Albert Einstein If God is everywhere and everything and is constant what is God Not who is God God is not a person or human but the essence of everything which can best be described or explained as being energy The hope of these writings is to help us in the twenty first century with the marriage of spirituality and science This author is not an expert in either field but after many years of studying through reading some fifty books a year about human development and history and with the lack of growth she saw the need to let go of old thinking and move into a new paradigm or model Hopefully this book can help us more in the death and dying issues What goes with you upon death Not your possessions or title or body So what is spirit soul Read on **Confessions of a Heretic** Eric Leland Saak,2025-06-15 This book is the second of a planned three volume systematic theology under the title

Confessions of a Heretic Volume One which has the subtitle Philosophical Considerations was published by Archway in 2024 The project now turns to Theological Considerations with the forthcoming Volume Three being Ecclesiological Consideration Organized into three Parts Volume Two focuses on the theological endeavor and the doctrines distinctive to Christianity namely the Trinity Jesus Christ sin and salvation Based on the foundational distinctions and definitions explicated in Volume One the current volume seeks to ask what the philosophical considerations imply for basic traditional understandings and terminology of Christian theology including that of Jesus of Nazareth his crucifixion and resurrection The project as a whole adopts a trinitarian structure with this second volume focused on God the Son or as here termed God the Perfector The argument is that Christian Theology needs to shift from an anthropocentric to a theocentric approach recognizing human beings simply as creatures and having the courage to face what that entails Yet doing so necessitates a radical reconceptualization of the very foundations of Christian Theology itself in the attempt to combat idolatry

The One Who Is Dr. Kenny Rhodes, 2015-02-27 This book is a comprehensive and concise treatment of the philosophical theological and biblical issues related to the doctrine of God Within its pages the nature existence and tri unity of God are presented in an understandable and clear manner The authors objective was to hold in highest regard the text of Holy Scripture while reflecting the biblical position of the historic orthodox faith The books tone is polemic and passionate sincere and scholarly with a commitment to communicate the truth of Gods Word with simplicity and profundity Also between its covers you will find a wealth of information with numerous references and explanatory notes for clarification and further personal study The book is arranged around the concept of the term logos which suffixes many other words and turns them into fields of study as in the phrase theology Theos logos The term Logos refers to the concepts of epistemology ontology and hermeneutics Applied to the doctrine of God its organization deals with Knowing God the Being of God and Communicating God This corresponds to Thomas Aquinas approach to understanding God in the questions what is God we define God by negation what He is not how do we know God we know him by His effects how do you communicate or explain God God is communicated to us by His names that is His attributes The book furthermore presents a classic and newly reworked argument for the existence of God called the Existential Argument which is based on the notion of being

God: The Failed Hypothesis Victor J. Stenger, 2010-08-05 Throughout history arguments for and against the existence of God have been largely confined to philosophy and theology while science has sat on the sidelines Despite the fact that science has revolutionized every aspect of human life and greatly clarified our understanding of the world somehow the notion has arisen that it has nothing to say about the possibility of a supreme being which much of humanity worships as the source of all reality This book contends that if God exists some evidence for this existence should be detectable by scientific means especially considering the central role that God is alleged to play in the operation of the universe and the lives of humans Treating the traditional God concept as conventionally presented in the Judeo Christian and Islamic traditions like any other scientific hypothesis physicist Stenger examines all of the claims made for God's existence He considers the latest Intelligent Design arguments as evidence of God's influence in biology He looks at human behavior for evidence of immaterial souls and the possible effects of prayer He discusses the findings of physics and astronomy in weighing the suggestions that the universe is the work of a creator and that humans are God's special creation After evaluating all the scientific evidence Stenger concludes that beyond a reasonable doubt the universe and life appear exactly as we might expect if there were no God This paperback edition of the New York Times bestselling hardcover edition contains a new foreword by Christopher Hitchens and a postscript by the author in which he responds to reviewers criticisms of the original edition

The Living under God’s Governmental Administration in His Salvation and the Provisions of the Divine Life Witness Lee, In his Epistles Peter emphasizes God s government Whereas Paul s ministry speaks mainly of the Body of Christ and John s ministry speaks mainly of the house of God Peter s ministry speaks mainly of the kingdom of God that is of all matters related to God s governmental administration His Epistles substantially and comprehensively speak of how God s hand in His governmental administration accomplishes His desire in us and they speak deeply and with much application to our actual condition If we want to know God in our practical living and walk and know God s hand and His work upon us we must know the content of the Epistles of Peter
