Good Life Money:

Little Money Artem H,2023-02-03 How often do we talk to our children about money We can guess that children know the words money bank bank card etc At first we tell them that for adults it s too early for you and then at 18 years old the child starts to interact with money without having the right idea about it I want to correct this situation and tell the children in an accessible form as well as to remind their moms and dads of the basic principles of communication with money and the most attentive ones will find a few hints on the way to their future richness

Money and Faith Michael Schut,2008-08 Talking about money in a personal way remains more of a taboo than sex or politics This seems odd within a Christian context since Jesus addressed topics of money poverty and wealth more than any other concerns For many money becomes an idol we see it in our own culture as we pursue economic growth no matter the cost to the overall well being of God s creation When that happens enough is always more than we have right now and scarcity becomes the lens through which we see the world On a personal level this book opens up issues of scarcity and abundance idolatry and freedom on a societal level it invites exploration of greater equity and sustainability On both levels it empowers individuals and groups to apply their faith s values in practical ways while taking pastoral and prophetic stances The author suggests we need to experience the nurturing companionship of a wise compassionate pastor or spiritual guide in our relationship to money while also needing to experience the power strength anger and call to repentance of an Old Testament prophet People want to connect their values with everyday concerns while discovering ways to make a positive difference This book helps them do both Includes a comprehensive study guide within the book for groups and individuals Contributors include Henri Nouwen Dave Barry Walter Brueggemann David Boyle Lynne Twist Lewis Hyde William Stringfellow John Haughey Ched Myers Bill McKibben Sallie McFague William Greider Leonardo Boff Jean Bertrand Aristide Victoria Tauli Corpuz Maria Harris Rich Lang Wayne Muller Sharon Parks Rodney Clapp Ted Nace Lester Brown Pete Barnes Andy Loving Edgar Cahn Sarah Tarver Wahlquist Susan Wilkes Jim Klobuchar

Africa's Social and Religious Quest Randee Ijatuyi-Morphé,2014-01-30 This well

crafted book probes the key dimensions of Africa's existential predicament. It constitutes an intellectual response to a gnawing African situation, the starting point for grasping Africa's social and religious quest. Beyond split explanations of external versus internal factors (e.g. colonization, slavery vs. leadership, cultural values), this study accounts more comprehensively for emergent issues shaping this situation. The situation reflects a gamut of problems in traditional African religion and material culture, which hitherto defines African communality, politics, and destinies vis-à-vis the cosmos and nature. Thus African religion and communities, each with its own attendant values, do not operate by critical engagement with larger issues of society and civilization, especially those shaped by the advent of post-modernity. Rather, they operate via adaptation. The communal drive for natural and social harmony inevitably produces a preservationist view of culture, leaving things as they are. This study takes an integrative approach to religion, society, and civilization, eschews dichotomies, and broadly defines and re-signifies life and wholeness as a true end of Africa's quest today.

Money and Health: A Study of American Social Values Harvey Goodman, 2005-05

[China's New Consumers](#) Elisabeth Croll, 2006-09-26 Exploring China's consumer revolution over the past three decades, this book shows a continuing cycle leading to excess supply and disappointing demand at the centre of which lies exaggerated expectations of China's new consumers. Combining economic trends with the author's anthropological background, *China's New Consumers* details the livelihoods and lifestyles of China's new and evolving social categories, who, divided by wealth, location, and generation, have both benefited from and been disadvantaged by the past two decades of reform and rapid economic growth. Given that consumption is about so much more than shopping and spending, this book focuses on the perceptions, priorities, and concerns of China's new consumers, which are an essential part of any contemporary narrative about China's domestic market. Documenting the social consequences of several decades of rapid economic growth and the new interest in all-round social development, *China's New Consumers* will be of value to students, entrepreneurs, and a wide variety of readers who are interested in social trends and concerns in China today.

Porosity between Politics and the Economy Egidius Berns, 2022-09-01 *Porosity between Politics and the Economy* addresses the relationships between politics and the economy in deeply original ways. It is a book motivated by a sense of urgency, aroused by both the failure of modern capitalism and the environmental crisis. Egidius Berns argues that the relations between politics and the economy are porous, and he investigates the consequences of this porosity. By mapping out a number of conceptual fault lines that underpin the weaknesses of post-industrial capitalist societies, Berns provides a fresh look at the current crisis of open societies. But the book also preliminarily points to a path to reforming the relations between the economy and politics. By analyzing the web of conceptual connections that will continue to inform any possible configuration between them, it finds a way into a future characterized by a certain ethics that combines restraint and combativeness.
