Fall Of The Philippines:

The Fall of the Philippines Louis Morton, 1953 A detailed description of the three month defense of Bataan the siege of Corregidor the soldier's life in the crowded intimacy of Malinta Tunnel MacArthur's evacuation and the surrender of 78 000 American and Allied troops *The Fall of the Philippines* Donald J. Young, 2015-03-30 World War II began for the United States with the Japanese attack on Pearl Harbor December 7 1941 followed by the invasion of the Philippine Islands the next day Unlike the rapid capture of Hong Kong Wake Island and Singapore the war in the Philippines lasted for seven months before the unprepared American and Filipino forces cut off from supplies and fighting with obsolete equipment and without air or naval support were overwhelmed Drawing on diaries and personal accounts this book chronicles forgotten actions in the fall of the Philippines through the recollections of American servicemen The author covers the 90 day perseverance of Bataan's tiny air force the first PT boat raid of the war the last U S horse cavalry charge in history a lone U S submarine's attack on a Japanese invasion fleet the deliberate bombing of Bataan's main field hospital by the Japanese the difficult and uneasy surrender of Bataan Corregidor's doomed resistance and the surrender of the Southern Islands of the archipelago

The Fall of the Philippines 1941-42 Clayton K. S. Chun, 2012-04-20 A highly illustrated account of the fall of the Philippines in 1941-42 one of the least covered campaigns of World War II [The Fall of the Philippines](#) Louis Morton, 2015-07-12 The soldier reading these pages would do well to reflect on the wisdom of the statement exhibited in a Japanese shrine Woe unto him who has not tasted defeat Victory too often leads to overconfidence and erases the memory of mistakes Defeat brings into sharp focus the causes that led to failure and provides a fruitful field of study for those soldiers and laymen who seek in the past lessons for the future The statesman and the informed citizen reading these pages will realize that our military means as well as our estimates and plans must always be in balance with our long range national policy This lesson signposted by the Battle of Manila Bay the Treaty of Paris signed in December 1898 when we decided to keep the Philippines the Washington Conference of 1921-22 and the Manchurian Crisis of 1931 we ignored before Pearl Harbor The result was defeat on the field of battle and the loss of the Philippine Islands The author of *The Fall of the Philippines* Louis Morton served overseas as a historical officer in the South Pacific area and in the Philippines during World War II Since 1945 he has been chief of the Pacific Section Office of the Chief of Military History Department of the Army He holds a Doctor of Philosophy degree from Duke University is the author of a volume on American colonial history and has written a number of articles dealing with military affairs **Fall of the Philippines** Ward Rutherford, 1971 Chance aided the Japanese in the Philippines Warning messages were never delivered pursuit planes took off and landed at the wrong moment anti aircraft shells were out of date But chance alone did not bring about the greatest defeat American arms have ever known back cover *The U.S. Army and World War II* Judith Bellafaire, 1998 *The U S Army and World War II* is an anthology of selected papers from three international conferences held in 1990 1992 and 1994 on the Army's role in the war

Taking the best from those meetings Judith L Bellafaire has organized the various presentations into four thematic categories prewar planning the home front the European theater and the Asian Pacific theaters reflecting the diversity of both the war and the interest of those seeking to understand its many facets In these carefully edited papers one will find the more conventional treatments of doctrine strategy and operations side by side with those focusing on military mobilization and procurement race and gender psychological warfare and large scale advice and assistance programs Despite significant changes in military technology and the geopolitical landscape of the world since those desperate times the human problems highlighted by the authors are not much different from many of those facing Army leaders today Although the past can never provide the specific recipes needed for the future experience has shown that both the basic ingredients and the manner in which they are prepared and processed have remained remarkably constant Those grappling with the challenges of stability operations and other contingency missions in support of the Global War on Terrorism will find this collection of readings invaluable
