Formosa Betrayed George Kerr, 1965 Formosa Betrayed George H. Kerr, 1992 Ghost Nation Chris Horton, 2025-07-17

Chris Horton is a freelance reporter in Taiwan having covered cross strait politics domestic politics the economy culture and breaking news in Taiwan for The New York Times Bloomberg The Atlantic The Guardian Financial Times and Quartz He has lived in Taiwan since 2015 and in China and Hong Kong for the decade preceding that He is the last foreign journalist to interview former president Lee Teng hui arguably the midwife of Taiwanese democracy and one of the most underappreciated post war Asian leaders

At Cross Purposes Richard C. Bush, 2015-02-12

Written by the former chairman and managing director of the American Institute in Taiwan this book sheds new light on key topics in the history of U S Taiwan relations It fills an important gap in our understanding of how the U S government addressed Taiwan and the Taiwan Strait issue from the early 1940s to the present One theme that runs through these essays is the series of obstacles erected that denied the people of Taiwan a say in shaping their own destiny Franklin Roosevelt chose to return Taiwan to mainland China for geopolitical reasons there was little pressure on the Kuomintang to reform its authoritarian rule until Congress got involved in the early 1980s Chiang Kai shek spurned American efforts in the 1960s to keep Taiwan in international organizations and behind the ROC s back the Nixon Carter and Reagan administrations negotiated agreements with the PRC that undermined Taiwan s position In addition to discussing how the United States reacted to key human rights cases from the 1940s to the 1980s the author also discusses the Bush and Clinton administrations efforts to preserve U S interests while accommodating new forces in the region All these episodes have an enduring relevance for the people of Taiwan and in his conclusion the author discusses where the relationship stands today The book includes related documents that helped shape the U S Taiwan relationship

Washington's Taiwan Dilemma, 1949-1950 David Finkelstein, 2014-04-15

The declaration of the People s Republic of China in October 1949 presented American foreign policy officials with two dilemmas how to deal with the communist government on the mainland and what to do about Chiang Kai shek s holdout Nationalist regime on Taiwan By early 1950 these questions were pressing hard upon U S civilian and military planners and policy makers for it appeared that the Red Army was preparing to invade the island Most observers believed that nothing short of American military intervention would preclude a communist victory on Taiwan How U S officials grappled with the question of what to do about Taiwan is at the heart of this study Prior to the publication of this book much of the historical literature on this critical period in U S policy toward China concentrated on the question of relations with the new regime in Beijing A focus on those debates has largely overshadowed the concomitant policy debates that centered around the question of how to deal with the Nationalist regime on Taiwan As this study shows the two issues were inextricably linked and developing a Taiwan policy was no less difficult or controversial Heavily informed by an analysis of declassified U S government documents and other primary sources this history strongly suggests that had North Korea not invaded the south

in June 1950 the U S would not have intervened to save Chiang Kai shek and Taiwan from near certain invasion Beyond the narrative itself this volume is also a case study into the complex and sometimes messy processes by which foreign policy is made It explores the tensions that existed within the Truman administration between the State Department and various newly created entities such as the Department of Defense the Joint Chiefs of Staff and the National Security Council Indeed the history of policymaking for China and Taiwan in 1949 50 is also a case study in the early development of the post war interagency system It also underscores the tensions between the Executive and Legislative branches in the development of foreign policy The study also brings to light little discussed and often uncomfortable issues in Taiwan history some of which still have relevance to politics on the island even today These include the legacies of the Japanese colonial experience the post war Nationalist occupation and the early stirrings of the Formosan independence movement to name just a couple Today U S policy toward Taiwan remains a highly charged and fundamentally divisive issue in U S China relations especially the security dimensions of that policy And even today U S Taiwan policy is still subject to partisan politics in Washington as well as in Taipei For those who still grapple with this issue this volume presents the roots of the dilemma and essential background reading

The Dust That Never Settles Mei-ling T. Wang, 1999-07-22 The Dust That Never Settles provides a historical review of the Taiwan independence movement in the framework of the economic social and cultural relations between the United States and China Mei ling T Wang provides a detailed account of the movement beginning in 1624 with the Dutch rule of Taiwan through 1997 He emphasizes the complexity of the relationship between the United States and China and he recognizes that the most intriguing aspect of the relations between them is the issue of the independence of Taiwan Wang analyzes historical events of the past 300 years in order to provide insight into the nature of the development of the situation that plagues U S foreign policy using political economy and cross cultural discourse in the framework of eighteenth century imperialism the Cold War and superpower politics This knowledge will allow foreign policy practitioners to understand the problems of the United States China relationship and lead to more effective solutions
